San Bernardino, California 92408

Project No.: 185806795

Sign-off Sheet and Signatures of Environmental Professionals

This document entitled Phase I and II Environmental Site Assessment (Report) was prepared by Stantec Consulting Services Inc. ("Stantec") for the account of Warmington Residential (the "Client"). The conclusions in the Report are Stantec's professional opinion, as of the time of the Report, and concerning the scope described in the Report. The opinions in the document are based on conditions and information existing at the time the scope of work was conducted and do not take into account any subsequent changes. The Report relates solely to the specific project for which Stantec was retained and the stated purpose for which the Report was prepared. The Report is not to be used or relied on for any variation or extension of the project, or for any other project or purpose, and any unauthorized use or reliance is at the recipient's own risk.

Stantec can neither warrant nor guarantee that information received from the "Client" and third parties in the preparation of the Report is correct. While Stantec has exercised a customary level of judgment or due diligence in the use of such information, Stantec assumes no responsibility for the consequences of any error or omission contained therein.

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in § 312.10 of Title 40 of the Code of Federal Regulations, Part 312, (40 CFR 312). I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the property. I have developed and performed all the appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Executive Summary
January 6, 2025

1.0 EXECUTIVE SUMMARY

Stantec Consulting Services Inc. (Stantec) has completed a Phase I and II Environmental Site Assessment (ESA) report of the property located at 911 and 927 West Arrow Highway, in the City of Upland, San Bernardino County, California (the "Subject Property"), on behalf of Warmington Residential (the "Client"). The work was performed according to Stantec's proposal and terms and conditions dated November 11, 2024. Warmington Residential (the "User") has been designated as the User of this report. The intended use of this Phase I ESA is for due diligence in support of acquisition for potential residential redevelopment.

The Phase I ESA was conducted in conformance with the requirements of ASTM International (ASTM) Designation E1527-21, and All Appropriate Inquiries (AAI) as defined by the United States Environmental Protection Agency (EPA) in Title 40 of the Code of Federal Regulations, Part 312 (40 CFR 312), except as may have been modified by the scope of work, and terms and conditions, requested by the Client. Any exceptions to, or deletions from, the ASTM or AAI practice are described in Section 2.3.

The Subject Property consist of approximately 6.06 acres of land associated with the addresses of 911 and 927 West Arrow Highway and Assessor's Parcel Numbers (APNs) 1007-181-03, 1007-181-02, 1046-321-43, 1007-181-01, and 1007-181-04. The Subject Property is developed with two residences and vacant, undeveloped land. According to historical records obtained during this ESA, the Subject Property appears to have been agriculturally utilized between at least the 1920s through 1950s, partially residentially developed by the 1950s, and partially vacant land by the 1960s. Uses of the adjoining properties, as well as the nearby area, are primarily residential and commercial properties. A Subject Property Location Map is provided as Figure 1. A Subject Property Detail Map illustrating the main features of the Subject Property and vicinity is provided as Figure 2. Photographs taken during the site reconnaissance are provided in Appendix A.

During the Phase I ESA, Stantec identified and evaluated the following environmental concern:

- **Historical Agricultural Use.** Historical agricultural use (i.e. orchards) was observed on the Subject property in the aerial photographs between the 1920s and 1950s. Based on the historical agricultural use, organochlorine pesticides (OCPs) and or herbicides may have been utilized on the Subject Property and near-surface soils may have potentially contained these compounds. A shallow soil assessment is recommended prior to redevelopment, to determine if OCPs or the metals lead and arsenic (related to herbicide use) are present at levels of concern for residential use and/or off-site disposal issues.

To address the aforementioned potential environmental concern (i.e. historical agricultural use), Stantec performed a Phase II ESA that consisted of the collection of shallow soil samples on the Subject Property on December 11, 2024. The scope of work performed included the advancement of twelve (12) soil borings (HA1-1 through HA12-1) to approximately 1-foot below ground surface (bgs) across the Subject Property as shown on Figure 2. Soil samples were collected from 1.0-foot feet bgs from all soil borings. Soil samples from the 1.0-foot interval were submitted for analysis of OCPs by EPA Method 8081A; and arsenic and lead by EPA Method 6010B.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Executive Summary
January 6, 2025

Detections of 4,4'-DDE were reported above laboratory reporting limits in one soil sample at reported concentrations of 0.0476 milligrams per kilogram (mg/kg), which is below the United States Environmental Protection Agency Regional Screening Level (RSL) for residential land use of 2.0 mg/kg and below the California hazardous waste level of 1.0 mg/kg for 4,4'-DDE.

Detections of Dieldrin were reported above laboratory reporting limits in one soil sample at reported concentrations of 0.0135 mg/kg, which is below the United States Environmental Protection Agency Regional Screening Level (RSL) for residential land use of 0.034 mg/kg.

No other detections of OCPs were reported above their corresponding laboratory reporting limits (i.e. "non-detect").

Lead was detected in all twelve borings at concentrations ranging from 3.5 to 28.4 mg/kg, which are below the regulatory thresholds for residential soil set at 80 mg/kg. Arsenic was reported in two soil samples analyzed at concentrations ranging from 6.8 to 7.9 mg/kg, which exceeded regulatory thresholds for residential soil set at 0.68 mg/kg. However, arsenic occurs naturally in California at levels up to 11 mg/kg, therefore exceeding the regulatory threshold based on naturally occurring conditions. The State of California uses the background level as the cleanup standard for arsenic. Therefore, the arsenic was detected below the anticipated regulatory cleanup level. Based on these soil analytical results, historical agricultural use is not considered a recognized environmental condition (REC) and no further assessment is warranted.

We have performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-21 at 911 and 927 West Arrow Highway, in the City of Upland, San Bernardino County, California, or the "Subject Property." Any exceptions to, or deletions from, this practice are described Section 2.3 of this report. This assessment has identified no RECs, Controlled RECs (CRECs), or significant data gaps in connection with the Subject Property. No further investigation appears to be warranted at this time.

The following items of note were identified during this Phase I ESA:

- A 24" diameter steel casing with a 12" diameter access port was observed in the vacant strip of land east of 911 West Arrow Highway. A concrete lined gravel pit surrounds the access port. Stantec attempted to gauge the casing; however, the depth of the casing exceeded 134-feet. This feature appears to be a water supply well; however, additional research is warranted to determine the former use. Additionally, this subsurface feature will need to be abandoned in accordance with applicable regulatory requirements before redevelopment can occur.
- The Subject Property structures were developed circa the late 1940s-early 1950s. As such, the potential for asbestos-containing materials (ACMs) and lead-based paint (LBP) is considered possible. Stantec recommends an ACM and LBP survey be conducted prior to redevelopment in conformance with applicable federal and local regulations.

The preceding summary is intended for informational purposes only. Reading of the full body of this report is recommended.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Introduction
January 6, 2025

2.0 INTRODUCTION

The objective of this Phase I ESA was to perform AAI into the past ownership and uses of the Subject Property consistent with good commercial or customary practice as outlined by ASTM International (ASTM) in “Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process,” Designation E1527-21. “All Appropriate Inquiries” is the process for evaluating a property’s environmental conditions for the purpose of qualifying for landowner liability protections under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) following final rule of Part 312 of Title 40, Code of Federal Regulations (40 CFR Part 312). The purpose of this Phase I ESA was to identify, to the extent feasible, adverse environmental conditions including recognized environmental conditions (“RECs”) of the Subject Property.

The ASTM E1527-21 standard indicates that the goal of the Phase I ESA is to identify RECs, as well as historical recognized environmental conditions (“HRECs”) and controlled recognized environmental conditions (“CRECs”) that may exist at a property. The term “recognized environmental conditions” is defined as:

- 1) the presence of hazardous substances or petroleum products in, on, or at the Subject Property due to a release to the environment;
- 2) the likely presence of hazardous substances or petroleum products in, on, or at the Subject Property due to a release or likely release to the environment; or
- 3) the presence of hazardous substances or petroleum products in, on, or at the Subject Property under conditions that pose a material threat of a future release to the environment.

ASTM defines a “HREC” as a previous release of hazardous substances or petroleum products affecting the Subject Property that has been addressed to the satisfaction of the applicable regulatory authority and meets current unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (e.g., activity and use limitations or other property use limitations). A HREC is not considered a REC.

ASTM defines a “CREC” as a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g., as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), but with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g., activity and use limitations, institutional controls, or engineering controls).

As defined by ASTM, RECs can include hazardous substances or petroleum products present under conditions in compliance with laws if that presence represents a material threat of future release. The release of hazardous substances or petroleum products is, however, not a REC if that presence is a *de minimis* condition. *De minimis* conditions are minor releases that generally do not present a material risk

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Introduction
January 6, 2025

to human health and would not likely be subject to enforcement action if brought to the attention of governmental agencies. ASTM also considers the potential for a business environmental risk (BER), defined as a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of the Subject Property, not necessarily limited to those environmental issues required to be investigated by the ASTM standard. Consideration of BERs may involve addressing one or more ASTM non-scope considerations.

This Phase I ESA was conducted in accordance with Stantec's proposal and terms and conditions dated November 11, 2024. The scope of work conducted during this Phase I ESA consisted of a visual reconnaissance of the Subject Property, interviews with key individuals, and review of reasonably ascertainable documents. The scope of work did not include an assessment for environmental regulatory compliance of any facility ever operated at the Subject Property (past or present). Stantec was not contracted to perform an independent evaluation of the purchase or lease price of the Subject Property and its relationship to current fair market value. The conclusions presented in this Phase I ESA report are professional opinions based on data described herein. The opinions are subject to the limitations described in Section 2.3.

ASTM E1527-21 notes that the availability of record information varies from source to source. The User or Environmental Professional (EP) is not obligated to identify, obtain, or review every possible source that might exist with respect to a property. Instead, ASTM identifies record information that is reasonably ascertainable from standard sources. "Reasonably ascertainable" means:

1. Information that is publicly available;
2. Information that is obtainable from its source within reasonable time and cost constraints; and
3. Information that is practicably reviewable.

2.1 SUBJECT PROPERTY DESCRIPTION

The Subject Property consist of approximately 6.06 acres of land associated with the addresses of 911 and 927 West Arrow Highway and Assessor's Parcel Numbers (APNs) 1007-181-03, 1007-181-02, 1046-321-43, 1007-181-01, and 1007-181-04. The Subject Property is developed with two residences and vacant, undeveloped land. According to historical records obtained during this ESA, the Subject Property appears to have been agriculturally utilized between at least the 1920s through 1950s, partially residentially developed by the 1950s, and partially vacant land by the 1960s. Uses of the adjoining properties, as well as the nearby area, are primarily residential and commercial properties. A Subject Property Location Map is provided as Figure 1. A Subject Property Detail Map illustrating the main features of the Subject Property and vicinity is provided as Figure 2. Photographs taken during the site reconnaissance are provided in Appendix A.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Introduction
January 6, 2025

2.2 SPECIAL TERMS, CONDITIONS, AND ADDITIONAL ASSUMPTIONS

There were no special terms, conditions, or additional assumptions associated with this Phase I ESA.

2.3 EXCEPTIONS AND LIMITING CONDITIONS

This report documents work that was performed in accordance with the MSA. No other representations, warranties or guarantees are made concerning the accuracy or completeness of the data or conclusions contained within this report.

This report provides an evaluation of specified environmental conditions associated with the identified property that was assessed at the time the work was conducted and is based on information obtained by and/or provided to Stantec at that time. 40 CFR 312.20(f)(2) requires that the Environmental Professional evaluate the thoroughness and reliability of provided information. Stantec can neither warrant nor guarantee such thoroughness or reliability, however.

Conclusions made within this report consist of Stantec's professional opinion as of the time of the preparation of this report, and are based solely on the scope of work described in the report, the limited data available and the results of the work. They are not a certification of the property's environmental condition.

Project Specific limiting conditions are provided in Section 2.2.

The conclusions are based on the site conditions encountered by Stantec at the time of the work. Accordingly, additional studies and actions may be required. The identification of non-environmental risks to structures or people on the Property is beyond the scope of this assessment.

Stantec specifically disclaims any responsibility to update the conclusions in this report if new or different information later becomes available or if the conditions or activities on the property subsequently change.

2.4 PERSONNEL QUALIFICATIONS

This Phase I ESA was conducted by, or under the supervision of, an individual that meets the ASTM definition of an EP. The credentials of the EP and other key Stantec personnel involved in conducting this Phase I ESA are provided in Appendix B.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

User-Provided Information
January 6, 2025

3.0 USER-PROVIDED INFORMATION

ASTM E1527-21 describe responsibilities of the User to complete certain tasks in connection with the performance of “All Appropriate Inquiries” into the environmental condition of the Subject Property. The ASTM standard requires that the EP request information from the User on the results of those tasks because that information can assist in the identification of RECs, CRECs, HRECs, or *de minimis* conditions in connection with the Subject Property. Towards that end, Stantec requested that the User provide the following documents and information:

Description of Information	Provided (Yes / No)	Description and/or Key Findings
User Questionnaire and/or Interview	Yes	The user is not aware of any environmental issues associated with the Subject Property.
Environmental Liens or Activity and Use Limitations (AUL)	N/A	No environmental liens and/or activity and use limitations (AULs) were identified in the Preliminary Title Report dated September 20, 2024, prepared by First American Title Company. No other land title records, deeds, environmental liens, and activity and use limitation documentation were provided by the User.
Previous Environmental Permits or Reports Provided by User	No	Not provided.
Purpose of the Phase I ESA	Yes	The intended use of the Phase I ESA is for redevelopment.

Stantec forwarded the ASTM recommended User Questionnaire to Mr. Bret Ilich, Project Manager at Warmington Residential. The completed User Questionnaire returned to us by Mr. Ilich, and dated December 2, 2024, is included in Appendix C.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Records Review
January 6, 2025

4.0 RECORDS REVIEW

The objective of consulting historical sources of information is to develop the history of the Subject Property and surrounding area and evaluate if past uses may have resulted in RECs. Physical setting records are evaluated to determine if the physical setting may have contributed to adverse environmental conditions in connection with the Subject Property. During the review of historical records, Stantec attempted to identify uses of the Subject Property from the present to the first developed use of the Subject Property. Stantec's research included the reasonably ascertainable and useful records described in this section.

4.1 PHYSICAL SETTING

A summary of the physical setting of the Subject Property is provided in the table below with additional details in the following subsections:

Topography:	According to the United States Geologic Survey (USGS) Ontario topographic map provided in the Environmental Data Resources Inc. (EDR) Physical Setting Source Addendum (Appendix D), the topographic gradient in the vicinity of the Subject Property is to the south and the Subject Property is located at approximately 1,281 feet above mean sea level (ft. amsl).
Soil/Bedrock Data:	The United States Department of Agriculture – Natural Resources Conservation Service (USDA-NRCS), Web Soil Survey identifies the soils beneath the Subject Property as: • Tujunga gravelly loamy sand, with well drained to excessively drained soils, with coarse soil textures. A typical soil profile is comprised of gravelly loamy sand (0-35 inches), and gravelly sand (35-59 inches).
Estimated Depth to Groundwater/ Estimated Direction of Gradient:	Site-specific groundwater investigations were not conducted during this ESA; however, according to the State Water Resources Control Board online database Geotracker, groundwater in the vicinity of the Subject Property is anticipated to be approximately 400-500 feet bgs and follow topography to the south.
NOTE: Site-specific groundwater flow direction and depth can only be determined by conducting site-specific groundwater testing, which Stantec has not conducted.	

4.1.1 Subject Property Topography and Surface Water Flow

The Subject Property is located at an elevation of approximately 1,281 ft amsl. Based on the topography and existing surface conditions, general surface water flow is to the south.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Records Review
January 6, 2025

4.1.2 Regional and Subject Property Geology

The Subject Property is located in San Bernardino County within the Peninsular Ranges Geomorphic Province, which includes northwest-southeast trending mountain ranges and valleys that have been developed by the San Andreas Fault system (California Geological Survey [CGS], 2002). The Subject Property is located on Pleistocene-Holocene age alluvium and alluvial fan deposits (DWR, 2003).

According to California DOC Earthquake Zone Map ([Department of Conservation Map Server \(ca.gov\)](https://www.ca.gov/)), the Subject Property is not located within an Alquist-Priolo (AP) Earthquake Fault Zone boundary.

4.1.3 Regional and Subject Property Hydrogeology

The Subject Property is located within the Chino subbasin of the Upper Santa Ana Valley Groundwater Basin (8-002.01). The Chino subbasin is bound on the northwest by the San Jose fault, on the north by the Cucamonga fault and impermeable rocks of the San Gabriel Mountains, and on the east by the Rialto-Colton fault. To southeast it is bound by the Jurupa Hills, Pedley Hills, La Sierra Hills, and the Santa Ana River. The Chino fault and impermeable rocks of the Chino Hills and Puente Hills bound the southwest side of the basin (DWR, 2018).

Site-specific groundwater investigations were not conducted during this ESA; however, according to a case closure summary of a nearby release case located approximately 2,000 feet west of the Subject Property, groundwater in the vicinity of the Subject Property is anticipated to be at approximately 400-500 feet bgs with a southerly flow direction.

4.2 FEDERAL, STATE AND TRIBAL ENVIRONMENTAL RECORDS

A regulatory agency database search report was obtained from EDR, a third-party environmental database search firm. A complete copy of the database search report, including the date the report was prepared, the date the information was last updated, and the definition of databases searched, is provided in Appendix D.

Stantec evaluated the information listed within the database relative to potential impact to the Subject Property, assessing the potential for impacts based in part on the physical setting. As part of this process, inferences have been made regarding the likely groundwater flow direction at or near the Subject Property. As described in 4.1.3, the inferred shallow groundwater flow direction is likely to be in the southerly direction. Observations about the Subject Property and adjoining properties made during the Subject Property reconnaissance are provided in more detail in Section 5.

4.2.1 Listings for Subject Property

The Subject Property was identified in the following environmental databases:

- The Subject Property is listed in the HWTS database under "Upland Manor". Date of creation in the database is 10/06/2014, with an inactive date listed as 01/05/2015. The EPA ID No. is listed as CAC002788518. No additional details are provided. Given there are no reported violations,

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Records Review
January 6, 2025

spills, or releases associated with the Subject Property, this listing is not considered a REC for the Subject Property.

4.2.2 Listings for Adjoining and Nearby Sites with Potential to Impact Subject Property

Stantec assessed data presented in the environmental agency database search report to evaluate the potential for conditions on adjoining and nearby sites to pose a REC, CREC, or HREC for the Subject Property. The evaluation included an opinion of the potential for contamination by hazardous substances or petroleum products to migrate to the Subject Property from an adjoining or nearby site, including by vapor migration or encroachment (i.e., potential for a vapor encroachment condition [VEC]. ASTM E2600-22 Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions (ASTM, 2022) was used as the basis for a Tier I Vapor Encroachment Screen (VES) for the Subject Property. This included evaluation of release sites within 1/10 mile for Petroleum Hydrocarbon releases, and 1/3 mile for volatile and semi-volatile organic compound (VOC, SVOC), plus other potential vapor phase contaminants (such as mercury).

Listed Facility Name/Address	Database Listing	Distance/Direction from Property	REC? (YES / NO)
Upland Brethren in Christ Inc. 845 W. Arrow Hwy. Upland, CA	RCRA NONGEN/NLR, E MANIFEST	Approximately 338 feet to the southeast	No
This site is listed in the RCRA database under "All Other Waste Management Services" since at least 2022. Asbestos-containing waste was generated and disposed of offsite in 2022. No violations, spills or releases are reported; therefore, this site is not considered a REC for the Subject Property.			
Schneider Alf/Schneider Alf Mary E Gro and Gas Sta 802-804 W. Arrow Hwy. Upland, CA	EDR HIST AUTO	Approximately 485-489 feet to the southeast	No
This site is listed as a historic fuel station between 1934 and 1940. No additional details are provided. Given the distance and direction from the Subject Property, this site is not considered a REC for the Subject Property.			
Lewis Homes Stonecrest Ave. Upland, CA	LUST, CORTESE, HIST CORTESE	Approximately 910 feet to the east-northeast	No
This site is listed in the SWRCB's GeoTracker database as a LUST release case with closure received on 9/26/1986. Waste oil/motor/hydraulic/lubricating is listed as contaminant in soil. A piping leak due to corrosion is reported on 6/18/1986 during tank closure activities. Given the case closure status and date of occurrence, as well as distance from the Subject Property, this site is not considered a REC for the Subject Property.			

The remaining listings in the database search report, including listings of Orphan Sites, provided in Appendix D, do not represent a REC for the Subject Property.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Records Review
January 6, 2025

4.3 LOCAL/REGIONAL ENVIRONMENTAL RECORDS

Stantec checked the following sources to obtain information pertaining to Subject Property use and/or indications of RECs in connection with the Subject Property:

4.3.1 City of Upland

Agency Name Contact Information	Finding
City of Upland 460 North Euclid Avenue Upland, California 91786 Date Requested: November 26, 2024	Stantec submitted a records request for the Subject Property address and adjoining properties to this agency on November 26, 2024. On December 5, 2024, the City of Upland provided available records for the Subject Property address. Records available included two closed cases for Upland Manor Inc dated October 31, 2023 and April 19, 2024 regarding weed abatement. Copies of the available records are provided in Appendix F.

4.3.2 Local Fire Department

Agency Name Contact Information	Finding
San Bernardino County Fire Protection District 620 South E Street San Bernardino, CA 92415 (909) 386-8401 Date Requested: November 26, 2024	On November 27, 2024, the San Bernardino County Fire Protection District responded to Stantec's records request stating that there were no records for the Subject Property APNs or addresses.

4.3.3 California Geologic Energy Management Division (CalGEM)

Agency Name, Contact Information	Findings
California Geologic Energy Management Division (CalGEM), Department of Conservation 5816 Corporate Avenue, Suite 200 Cypress, CA 90630 Online database: Well Finder Date Accessed: January 6, 2025	Stantec searched for oil wells on the California Geologic Energy Management Division (CalGEM) online database. There are no oils wells located within the Subject Property boundaries. The nearest oil well is located approximately five miles from the Subject Property. Due to distance, oil wells are not considered an environmental concern and no further investigation is recommended.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Records Review
January 6, 2025

4.3.4 California State Water Resources Control Board

Agency Name, Contact Information	Findings
California State Water Resources Control Online database: https://geotracker.waterboards.ca.gov/ Date Accessed: January 6, 2025	Stantec conducted a search for records on the California State Water Resources Control board. According to the database, there were no records available for the Subject Property address or adjoining properties on the SWRCB Geotracker website.

4.3.5 Department of Toxic Substances Control (DTSC)

Agency Name Contact Information	Finding
Department of Toxic Substances Control (DTSC) 5796 Corporate Ave., Cypress, CA 90630 Date Accessed: January 6, 2025	Stantec researched the online database Envirostor managed by this agency (envirostor.dtsc.ca.gov). No records were found on the database website for the Subject Property address or adjoining properties.

4.4 HISTORICAL RECORDS REVIEW

4.4.1 Land Title Records/Deeds

No environmental liens and/or activity and use limitations (AULs) were identified in the Preliminary Title Report dated September 20, 2024, prepared by First American Title Company. No other land title records, deeds, environmental liens, and activity and use limitation documentation were provided by the User. Stantec's review of governmental databases identified no environmental liens or activity and use limitations in connection with the Subject Property.

4.4.2 Aerial Photographs

Stantec reviewed historical aerial photographs provided by EDR. The general type of activity on a property and land use changes can often be discerned from the type and layout of structures visible in the photographs. However, specific elements of a facility's operation usually cannot be discerned from aerial photographs alone. The following table summarizes Stantec's observations of the reviewed historical aerial photographs. Copies of the historical aerial photographs are provided in Appendix E.

Year	Scale	Observations of Subject Property and Adjoining/Nearby Properties
1928 1938	1"=500'	The Subject Property and surrounding area appear to be utilized for agricultural purposes. By 1938, residences are depicted adjoining southeast.
1949	1"=500'	The western, eastern and southeastern portions of the Subject Property appear to be agriculturally developed. The central portion appears to be

Records Review
January 6, 2025

Year	Scale	Observations of Subject Property and Adjoining/Nearby Properties
		cleared land with a structure depicted. The southwestern portion is depicted with a structure. Adjoining properties appear similar to the 1938 aerial.
1953	1"=500'	The southern portion of the Subject Property is depicted with structures, while the northern portion appears agriculturally developed. Adjoining properties appear similar to the 1949 aerial.
1959	1"=500'	The southern portion of the Subject Property is depicted with what appears to be residential structures. The northern portion appears to be vacant, cleared land. Adjoining properties are a mix of agricultural, residential and commercial development.
1964 1966 1972 1975	1"=500'	The Subject Property appears similar to the 1959 aerial with the addition of two potential storage containers depicted in the west central portion. Adjoining properties are a mix of agricultural, residential and commercial development.
1985 1990 1994	1"=500'	The Subject Property appears similar to the 1975 aerial with the addition of another potential storage structure in the eastern portion. Adjoining properties are densely developed with residential and commercial development.
2002 2006 2009 2012 2016 2020	1"=500'	The Subject Property appears similar to the 1994 aerial. Adjoining properties are densely developed with residential and commercial development.

Aerial photographs source: The EDR Aerial Photo Decade Package, 2024

4.4.3 City Directories

Stantec retained a third party to research available city directories for the Subject Property and adjoining and nearby properties, in approximately five-year intervals. The Subject Property is listed as residential between 1960 and 2020. The adjacent property listings largely include residential properties and a church. No listings of environmental concern were noted in the listings provided for the nearby sites. Copies of the city directory listings are provided in Appendix E.

4.4.4 Historical Fire Insurance Maps

Fire insurance maps were developed for use by insurance companies to depict facilities, properties, and their uses for many locations throughout the United States. These maps provide information on the history of prior land use and are useful in assessing whether there may be potential environmental contamination on or near the Subject Property. These maps, which have been periodically updated since the late 19th century, often provide valuable insight into historical Subject Property and adjoining and nearby property uses.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Records Review
January 6, 2025

Stantec requested fire insurance maps from EDR; however, no coverage exists for the Subject Property. The Sanborn® Map Search Report indicating “no coverage” is presented in Appendix E.

4.4.5 Historical Topographic Maps

Stantec reviewed historical USGS Topographic Maps of the Ontario, Cucamonga, Ontario and Vicinity, Evey Canyon, and La Verne and Evey Canyon, California Quadrangles to help identify past Subject Property and adjoining and nearby property usage and areas of potential environmental concern. Copies of the historical maps are provided in Appendix E.

The following table summarizes the maps reviewed and our observations.

Year	Scale	Observations of Subject Property and Adjoining/Nearby Properties
1897 1900 1903	1:62,500	The Subject Property and adjoining land are shown as undeveloped. Roadways and small structures appear in the surrounding areas.
1933	1:24,000	The Subject Property and adjoining properties are unmapped.
1940	1:20,000	The Subject Property and adjoining properties to the north, west and east are depicted as vacant. The adjoining properties to the south are unmapped.
1942	1:31,680	The Subject Property is depicted as undeveloped and transected by a road. Undeveloped land, roads, and small structures are shown throughout adjacent land.
1944	1:50,000	The Subject Property and adjoining properties to the north, west, east and south are depicted as agriculturally developed. Residential development is depicted adjoining southeast.
1954	1:24,000	The Subject Property is depicted with agricultural development, vacant land, and two structures. Adjoining properties to the north, west, east and south are depicted as agriculturally developed. Dense development is depicted adjoining southeast.
1967 1973 1976 1981	1:24,000	The southern portion of the Subject Property and adjoining properties to the north, west, and east are developed with structures. The northern portion of the Subject Property is shown as undeveloped. Agricultural land is shown adjoining south.
2012 2015 2018 2021	1:24,000	Structures are not depicted on the map. Roadways appear in their current configuration.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Records Review
January 6, 2025

4.4.6 Other Historical Sources

No other historical sources were searched by Stantec as a part of this assessment.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Site Reconnaissance
January 6, 2025

5.0 SITE RECONNAISSANCE

A visit to the Subject Property and its vicinity was conducted by Mr. Mitchell Bohn, Senior Environmental Technician with Stantec, on December 11, 2024. Stantec was unaccompanied during the Subject Property visit. Figure 2 provides information about the Subject Property and adjoining sites and the location of potential areas of environmental concern. Detailed Subject Property features are shown on Figure 2. Photographs collected during the site reconnaissance are included in Appendix A.

5.1 SITE RECONNAISSANCE METHODOLOGY

The site reconnaissance focused on observation of current conditions and observable indications of past uses and conditions of the Subject Property that may indicate the presence of RECs. The reconnaissance of the Property was conducted on foot and Stantec utilized the following methodology to observe the Property:

- Traverse the outer Subject Property boundary
- Traverse transects across the Subject Property

Weather conditions during the visit to the Subject Property were clear and sunny. There were no weather-related Subject Property access restrictions encountered during the reconnaissance visit.

5.2 GENERAL DESCRIPTION

Subject Property and Area Description:	The Subject Property is located north of West Arrow Highway in City of Upland, County of San Bernardino, California. The surrounding area consists of residential structures and a church.
Subject Property Operations:	Two single family residential structures and a vacant lot with concrete pads.
Structures, Roads, Other Improvements:	Two single family residential structures with separate garages are located along West Arrow Highway in the southern portion of the Subject Property. An alley with a subsurface possibly stormwater related structure appears adjacent to the east of the residential structures and leads to a large vacant and with concrete pads likely formerly used for recreation activities.
Subject Property Size (acres):	Approximately 6.06 acres
Estimated % of Subject Property Covered by Buildings and/or Pavement:	Approximately 20%
Observed Current Subject Property Use/Operations:	Two single family residential structures and a vacant lot with concrete pads.
Observed Evidence of Past Subject Property Use(s):	Multiple concrete pads were observed in the southern portion of the vacant lot and were likely formerly used for recreation activities.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Site Reconnaissance
January 6, 2025

Sewage Disposal Method (and age):	City of Upland.
Potable Water Source:	City of Upland.
Electric and Natural Gas Utilities:	Southern California Edison.

5.3 HAZARDOUS SUBSTANCES AND PETROLEUM PRODUCTS

The following table summarizes Stantec's observations during the Subject Property reconnaissance.

Observations	Description/Location
Hazardous Substances and Petroleum Products as Defined by CERCLA 42 U.S.C. § 9601(14) with identified uses:	None observed.
Drums/Totes/Intermediate Bulk Containers (≥ 5 gallons):	One approximately 5-gallon bucket of waste oil was observed outside the fence line of 868 Linden Court and on the Subject Property. De minimis staining was observed on the soil beneath the bucket (less than 5 square feet). The bucket of used oil should be disposed of in accordance with applicable regulations.
Strong, Pungent, or Noxious Odors:	None observed.
Pools of Liquid:	None observed.
Unidentified Substance Containers:	None observed.
Polychlorinated biphenyl (PCB)-Containing Equipment:	None observed.
Other Observed Evidence of Hazardous Substances or Petroleum Products:	None observed.

5.4 INTERIOR OBSERVATIONS

The residential structures were occupied and no interior access was granted. Given the use of the structures for residential purposes the lack of interior access is not considered a significant data gap and is unlikely to impact the findings of this report.

5.5 EXTERIOR OBSERVATIONS

Stantec made the following observations during the site reconnaissance of exterior areas of the Subject Property and/or identified the following information during the interview or records review portions of the assessment:

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Site Reconnaissance

January 6, 2025

Observations	Description
On-site Pits, Ponds, or Lagoons:	None observed.
Stained Soil or Pavement:	None observed.
Stressed Vegetation:	None observed.
Waste Streams and Waste Collection Areas:	None observed.
Solid Waste Disposal:	None observed.
Potential Areas of Fill Placement:	None observed.
Wastewater:	No exterior wastewater discharge was observed.
Stormwater:	No evidence contamination or any potential off-site sources of contamination flowing onto Subject Property via stormwater were observed.
Wells:	A 24" diameter steel casing with a 12" diameter access port was observed in the vacant strip of land east of 911 West Arrow Highway. A concrete lined gravel pit surrounds the access port. Stantec attempted to gauge the casing; however, the depth of the casing exceeded 134-feet. This feature appears to be a water supply well; however, additional research is warranted to determine the former use. Additionally, this subsurface feature will need to be abandoned in accordance with applicable regulatory requirements before redevelopment can occur.
Septic Systems:	No visible evidence of the existence of a septic system was observed.
Other Exterior Observations:	None observed.

5.6 UNDERGROUND STORAGE TANKS/STRUCTURES

Existing USTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface patches), which would indicate the presence of USTs, was discovered during the site reconnaissance.
Former USTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface patches), reports, or other evidence of the former presence of USTs was discovered during this Phase I ESA.
Other Underground Structures:	None observed.

5.7 ABOVEGROUND STORAGE TANKS

Existing ASTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface stains), which would indicate the presence of ASTs, was discovered during the site reconnaissance.
Former ASTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface stains), reports, or other evidence of the former presence of ASTs was discovered during this Phase I ESA.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Site Reconnaissance
January 6, 2025

5.8 ADJOINING PROPERTIES

5.8.1 Current Uses of Adjoining Properties

As viewed from the Subject Property and/or from public rights-of-way, Stantec made the following observations about use and activities on adjoining sites:

NORTH	Residential and a church.
EAST	Residential and a church.
SOUTH	West Arrow Highway and Residential.
WEST	Residential.

5.8.2 Observed Evidence of Past Uses of Adjoining Properties

Observations of adjoining sites providing indications of past use and activities, if any, are described below.

NORTH	None observed.
EAST	None observed.
SOUTH	None observed.
WEST	None observed.

5.8.3 Pits, Ponds, or Lagoons on Adjoining Properties

As viewed from the Subject Property and/or from public rights-of-way, Stantec made the following observations about the presence of pits, ponds, and lagoons on adjoining sites:

NORTH	None observed.
EAST	None observed.
SOUTH	None observed.
WEST	None observed.

5.9 OBSERVED PHYSICAL SETTING

Topography of the Subject Property and Surrounding Area:	The Subject Property and surrounding area are relatively flat
---	---

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

PHASE II ENVIRONMENTAL ASSESSMENT

January 6, 2025

6.0 PHASE II ENVIRONMENTAL ASSESSMENT

During the Phase I ESA, Stantec identified the following environmental concern associated with the Subject Property.

- **Historical Agricultural Use.** Historical agricultural use (i.e. orchards) was observed on the Subject property in the aerial photographs between the 1920s and 1950s. Based on the historical agricultural use, organochlorine pesticides (OCPs) and/or herbicides may have been utilized on the Subject Property and near-surface soils may have potentially contained these compounds. A shallow soil assessment is recommended prior to redevelopment, to determine if OCPs or the metals lead and arsenic (related to herbicide use) are present at levels of concern for residential use and/or off-site disposal issues.

The following scope of work was completed to address the potential REC.

6.1 PRE-DRILLING ACTIVITIES

Prior to the commencement of fieldwork activities Stantec made the following preparations:

- Stantec obtained an Underground Service Alert (USA) ticket number prior to commencement of drilling activities.
- In accordance with federal OSHA regulations (29 CFR, Section 1910.120), Stantec developed a site-specific Health and Safety Plan (HASP) for the Property. All Stantec personnel and subcontractors associated with the project were required to be familiar with, and comply with, all provisions of the HASP.

6.2 INVESTIGATION

To address the aforementioned potential environmental concern (i.e. historical agricultural use), Stantec performed a Phase II ESA that consisted of the collection of shallow soil samples on the Subject Property on December 11, 2024. The scope of work performed included the advancement of twelve (12) soil borings (HA1-1 through HA12-1) to approximately 1-foot below ground surface (bgs) across the Subject Property as shown on Figure 2. Soil samples were collected from 1.0-foot foot bgs from all soil borings. Soil samples from the 1.0-foot interval were submitted for analysis of OCPs by EPA Method 8081A; and arsenic and lead by EPA Method 6010B.

6.3 LABORATORY TESTING PROGRAM

Soil samples collected from the 1-ft interval during this investigation were analyzed for OCPs by EPA Method 8081A; and the metals lead and arsenic by EPA Method 6010B by Jones Environmental Inc. (JEI), located in Santa Fe Springs, California. All samples collected during this investigation were

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

PHASE II ENVIRONMENTAL ASSESSMENT

January 6, 2025

transported under chain-of-custody protocols and analyzed by certified for hazardous waste testing by the California State Water Resources Control Board Environmental Laboratory Accreditation Program (ELAP). Complete laboratory reports, including QA/QC documentation is included in Appendix G.

6.4 INVESTIGATION RESULTS

6.4.1 FIELD OBSERVATIONS

Soils encountered during the investigation consisted of silty sand to a maximum depth of 1-foot bgs. Groundwater was not encountered in any of the boreholes. No staining or odors were observed in any of the boreholes.

6.4.2 Soil Analytical Results

Detections of 4,4'-DDE were reported above laboratory reporting limits in one soil sample at reported concentrations of 0.0476 milligrams per kilogram (mg/kg), which is below the United States Environmental Protection Agency Regional Screening Level (RSL) for residential land use of 2.0 mg/kg and below the California hazardous waste level of 1.0 mg/kg for 4,4'-DDE.

Detections of Dieldrin were reported above laboratory reporting limits in one soil sample at reported concentrations of 0.0135 mg/kg, which is below the RSL for residential land use of 0.034 mg/kg.

No other detections of OCPs were reported above their corresponding laboratory reporting limits (i.e. "non-detect").

Lead was detected in all twelve borings at concentrations ranging from 3.5 to 28.4 mg/kg, which are below the regulatory thresholds for residential soil set at 80 mg/kg. Arsenic was reported in two soil samples analyzed at concentrations ranging from 6.8 to 7.9 mg/kg, which exceeded regulatory thresholds for residential soil set at 0.68 mg/kg. However, arsenic occurs naturally in California at levels up to 11 mg/kg, therefore exceeding the regulatory threshold based on naturally occurring conditions. The State of California uses the background level as the cleanup standard for arsenic. Therefore, the arsenic was detected below the anticipated regulatory cleanup level. Based on these soil analytical results, historical agricultural use is not considered a recognized environmental condition (REC) and no further assessment is warranted.

6.5 PHASE II ESA CONCLUSIONS AND RECOMMENDATIONS

Based on these soil analytical results, historical agricultural use is not considered a REC and no further assessment is warranted.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Evaluation
January 6, 2025

7.0 EVALUATION

This section provides a summary overview of or Findings, Opinions, and Conclusions.

7.1 FINDINGS AND OPINIONS

Information gathered from interviews, reviews of existing data, and an inspection was evaluated to determine if RECs are present in connection with the Subject Property. Based on this information, Stantec made the following findings and developed the following opinions:

- Historical agricultural use (i.e. orchards) was observed on the Subject property in the aerial photographs between the 1920s and 1950s. Based on the historical agricultural use, organochlorine pesticides (OCPs) and or herbicides may have been utilized on the Subject Property and near-surface soils may have potentially contained these compounds. A shallow soil assessment is recommended prior to redevelopment, to determine if OCPs or the metals lead and arsenic (related to herbicide use) are present at levels of concern for residential use and/or off-site disposal issues.

To address the aforementioned potential environmental concern (i.e. historical agricultural use), Stantec performed a Phase II ESA that consisted of the collection of shallow soil samples on the Subject Property on December 11, 2024. The scope of work performed included the advancement of twelve (12) soil borings (HA1-1 through HA12-1) to approximately 1-foot bgs across the Subject Property as shown on Figure 2. Soil samples were collected from 1.0-foot from all soil borings. Soil samples from the 1.0-foot interval were submitted for analysis of OCPs by EPA Method 8081A; and arsenic and lead by EPA Method 6010B.

Detections of 4,4'-DDE were reported above laboratory reporting limits in one soil sample at reported concentrations of 0.0476 mg/kg, which is below the RSL for residential land use of 2.0 mg/kg and below the California hazardous waste level of 1.0 mg/kg for 4,4'-DDE.

Detections of Dieldrin were reported above laboratory reporting limits in one soil sample at reported concentrations of 0.0135 mg/kg, which is below the RSL for residential land use of 0.034 mg/kg.

No other detections of OCPs were reported above their corresponding laboratory reporting limits (i.e. "non-detect").

Lead was detected in all twelve borings at concentrations ranging from 3.5 to 28.4 mg/kg, which are below the regulatory thresholds for residential soil set at 80 mg/kg. Arsenic was reported in two soil samples analyzed at concentrations ranging from 6.8 to 7.9 mg/kg, which exceeded regulatory thresholds for residential soil set at 0.68 mg/kg. However, arsenic occurs naturally in California at levels up to 11 mg/kg, therefore exceeding the regulatory threshold based on

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Evaluation
January 6, 2025

naturally occurring conditions. The State of California uses the background level as the cleanup standard for arsenic. Therefore, the arsenic was detected below the anticipated regulatory cleanup level.

Based on these soil analytical results, historical agricultural use is not considered a REC and no further assessment is warranted.

- A 24" diameter steel casing with a 12" diameter access port was observed in the vacant strip of land east of 911 West Arrow Highway. A concrete lined gravel pit surrounds the access port. Stantec attempted to gauge the casing; however, the depth of the casing exceeded 134-feet. This feature appears to be a water supply well; however, additional research is warranted to determine the former use. Additionally, this subsurface feature will need to be abandoned in accordance with applicable regulatory requirements before redevelopment can occur.
- The Subject Property structures were developed circa the late 1940s-early 1950s. As such, the potential for asbestos-containing materials (ACMs) and lead-based paint (LBP) is considered possible. Stantec recommends an ACM and LBP survey be conducted prior to redevelopment in conformance with applicable federal and local regulations.
- An environmental records search was performed and identified sites within their respective ASTM E1527-21 search radii of the Subject Property that may represent RECs, CRECs, HRECs, or *de minimis* conditions.

Based on one or more of the following reasons: distance from the Subject Property, position of sites with respect to assumed groundwater flow direction, the type of native soils, and regulatory status, none of the sites identified in the environmental records search report are expected to impact soil or groundwater quality at the Subject Property. The environmental records search identified no RECs, CRECs, HRECs or *de minimis* conditions at or near the Subject Property.

7.2 DATA GAPS

The federal AAI final rule [40 CFR 312.10(a)] and ASTM E1527-21 identify a "data gap" as the lack or inability to obtain information required by the standards and practices of the rule despite good faith efforts by the EP or the User.

Any data gaps resulting from the Phase I ESA described in this report are listed and discussed below.

Gap	Discussion
Deletions or Exceptions from Scope of Work Referenced in Section 1.4:	None.
Weather-Related Restrictions to Site Reconnaissance:	None.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Evaluation
January 6, 2025

Gap	Discussion
Facility Access Restrictions to Site Reconnaissance:	None.
Other Site Reconnaissance Restrictions:	None.
Data Gaps from Environmental Records Review:	None.
Data Gaps from Historical Records Review:	Historical records for the Subject Property were not available in five-year increments. These are considered to be data gaps; however, based on available historical records and consistent land use, they do not appear to change the conclusions of this report and do not represent a significant data gap.
Data Gaps from Interviews:	No interview was conducted during this scope of work. Given the historical documentation available, the lack of an interview is not considered a significant data gap and is unlikely to impact the findings of this report.
Other Data Gaps:	None.

7.3 CONCLUSIONS

We have performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-21 at 911 and 927 West Arrow Highway, in the City of Upland, San Bernardino County, California, or the "Subject Property." Any exceptions to, or deletions from, this practice are described Section 2.3 of this report. This assessment has identified no recognized environmental conditions (RECs), Controlled RECs (CRECs), or significant data gaps in connection with the Subject Property. No further investigation appears to be warranted at this time.

The following items of note were identified during this Phase I ESA:

- A 24" diameter steel casing with a 12" diameter access port was observed in the vacant strip of land east of 911 West Arrow Highway. A concrete lined gravel pit surrounds the access port. Stantec attempted to gauge the casing; however, the depth of the casing exceeded 134-feet. This feature appears to be a water supply well; however, additional research is warranted to determine the former use. Additionally, this subsurface feature will need to be abandoned in accordance with applicable regulatory requirements before redevelopment can occur.
- The Subject Property structures were developed circa the late 1940s-early 1950s. As such, the potential for asbestos-containing materials (ACMs) and lead-based paint (LBP) is considered possible. Stantec recommends an ACM and LBP survey be conducted prior to redevelopment in conformance with applicable federal and local regulations.

PHASE I AND II ENVIRONMENTAL SITE ASSESSMENT

Non-Scope Considerations
January 6, 2025

8.0 NON-SCOPE CONSIDERATIONS

The following ASTM E1527-21 Non-Scope Considerations were performed as part of this Phase I ESA:

8.1 RADON

Radon is a colorless, tasteless radioactive gas with an EPA-specified action level of 4.0 PicoCuries per liter of air (pCi/L) for residential properties. Radon gas has a very short half-life of 3.8 days. The health risk potential of radon is primarily associated with its rate of accumulation within confined areas near or in the ground, such as basements, where vapors can readily transfer to indoor air from the ground through foundation cracks or other pathways. Large, adequately ventilated rooms generally present limited risk for radon exposure. The radon concentrations in buildings and homes depend on many factors, including soil types, temperature, barometric pressure, and building construction (EPA, 1993).

Stantec reviewed regional data published by the EPA on average indoor radon concentrations in the vicinity of the Property (<http://www.epa.gov/radon/zonemap.html>).

EPA Radon Zones (w/Average Measured Indoor Radon concentrations)		
Zone 1 – High (>4.0 pCi/L)	Zone 2 – Moderate (2 to 4 pCi/L)	Zone 3 – Low (<2 pCi/L)
	X	
Normally-occupied sub grade areas present? (i.e., basement apartments, offices, stores, etc.)		
None observed.		

The Subject Property is located in Zone 2 and is considered to have medium potential for radon. To determine Subject Property-specific radon levels, a radon survey would have to be conducted. According to EDR, none of the 0 tests in Zip code 91710 were above 4 pCi/L. Because there are no occupied subgrade areas, further investigation of indoor radon issues does not appear to be warranted.

8.2 FLOOD ZONES

According to the Physical Setting summary portion of the EDR report, the Subject Property is not located within a 500-year or 100-year flood plain.

APPENDIX B

STANTEC RESUMES

Jennifer Alvarado

Associate Scientist/Project Manager, Environmental Services

Jennifer is a California Certified Site Surveillance Technician (CSST), California Lead-Related Construction Sampling Technician, and Radon Measurement Specialist with more than ten years of environmental consulting experience. Her experience includes project management and performance of Phase I Environmental Site Assessments, asbestos, lead, and radon surveys. Additionally, Jennifer has a background in biological consulting, including avian and wildlife surveys, vegetation mapping and rare plant surveys, nesting bird surveys, and construction environmental monitoring.

EDUCATION

MA, Ecopsychology & Sustainability, Viridis Graduate Institute, Ojai, California, 2017

BA, Physical Anthropology, University of California, Santa Barbara, Santa Barbara, California, 2008

CERTIFICATIONS

Certified Site Surveillance Technician, State of California Division of Occupational Safety and Health

State of California Department of Public Health Lead-Related Construction Sampling Technician

Radon Measurement Specialist, National Radon Safety Board

State of Hawaii Asbestos Certification

SELECTED PROJECT EXPERIENCE

Target Corporation, Asbestos Surveys, Nationwide
Jennifer manages nationwide asbestos surveys for Target at retail and business center locations throughout the United States. Jennifer manages subconsultants with specialized state-specific asbestos certifications to ensure compliance with local regulatory requirements.

7-Eleven, Inc., Phase I ESAs, Nationwide
Jennifer has several years of experience performing Phase I ESAs for the 7-Eleven retail fuel service company across multiple states including California, Nevada, Arizona, and Colorado.

Asbestos and Lead Surveys, California and Hawaii
Jennifer has conducted multiple asbestos and lead surveys for multi-story buildings for a confidential health care client. The surveys included exterior and interior sampling, mapping, and reporting. Additionally, inventories of hazardous materials were taken, including potential mercury and PCB-containing materials.

Radon Surveys, California and Nationwide

Jennifer has conducted radon assessments for multiple commercial and residential clients throughout Southern California. Additionally, Jennifer oversees radon assessments for clients nationwide.

Noise Dosimetry, Water Bottling Facility, Ontario, California

Jennifer assisted in a noise dosimetry at a water bottling facility to evaluate compliance with the United States, Occupational Health and Safety Administration (OSHA) PELs established for workplace noise exposure.

Algonquin Power, SKIC 10 Solar Project San Joaquin Kit Fox, Burrowing Owl, Nesting Bird and Wildlife Clearance Surveys, Bakersfield, California

Jennifer performed San Joaquin kit fox, burrowing owl, nesting bird, and wildlife clearance surveys prior to project construction.

City of Ventura, Commercial Development Project, Tree Inventory, Ventura, California

Jennifer conducted a tree inventory of several hundred trees for a commercial development project and assisted with the preparation of an arborist report.

Plains All American Pipeline Company (PAALP), Biological Monitoring, Line 63 Pipeline Replacement Project, Castaic, California

Jennifer conducted biological and restoration monitoring of a petroleum pipeline replacement within the Angeles National Forest. She conducted sensitive species clearance surveys prior to daily construction activities and monitored habitat restoration and Best Management Practices (BMP) installation.

** denotes projects completed with other firms*

Kyle has more than 28 years of professional experience—17 of those years with Stantec—providing geotechnical and environmental consulting. During the course of his experience, he has been involved with a wide variety of geological and engineering projects. He has been in direct charge of quality control/quality assurance (QA/QC) work for Stantec and previous firms for geological, engineering geological, and environmental services primarily in California. Additionally, Kyle has been a primary contact for Stantec with many different clients (including multi-party actions) and regulatory bodies involving contracting, workplan approvals, site assessments and closures, permitting, remedial action, and litigation support. With regard to litigation services, Kyle has extensive experience providing expert witness testimony, second-party review, and litigation support and analysis.

Kyle's extensive experience includes assessment and remediation of property-specific and regional issues involving soil and groundwater contaminated with petroleum hydrocarbons, chlorinated solvents, heavy metals, pesticides, and PCBs.

He currently serves as the managing principal geologist in Stantec's Redlands, California office.

EDUCATION

Engineering Geology/Hydrogeology, California
State University, Los Angeles, California, 1984

AS, General Science, Crafton Hills College,
Yucaipa, California, 1975

BS, Geological Sciences, California State
University, Long Beach, California, 1982

REGISTRATIONS

Certified Engineering Geologist #1271, State of
California Issued 1985, Expires 2011

Professional Geologist #4066, State of California
Issued 1985, Expires 2011

PROJECT EXPERIENCE

Bioremediation
Excavation and Treatment of Petroleum-
Contaminated Soil

Kyle designed the excavation and treatment of
45,000 cubic yards of petroleum-contaminated
soil. Soil treatment included utilizing vapor
extraction, combined with bioremediation.

Kyle D. Emerson PG, CEG

Managing Principal Geologist

Chemicals & Polymers

Two Former Chemical Plants, Environmental Site Assessments and Remediation, Vernon, California

Mr. Emerson was part of the team for conducting Phase I and Phase II Environmental Site Assessments (ESA) and developing remedial action plans for two former chemical plant sites with 80-year industrial histories. Phase I ESAs used historical files, maps, aerial photographs, available documents, and data from public agencies and historical directories for identifying recognized environmental concerns. Extensive Phase II ESA survey activities aided in identifying below-grade structures such as vaults/USTs, as well as assessing the extent of influence and nature of the contamination. These investigations confirmed the presence of heavy metals, petroleum hydrocarbons, volatile organic compounds, polychlorinated biphenyls, radioactive materials, semi-volatile organic compounds, and polycyclic aromatic compounds in the soils for these sites. Specific areas of concern included former settling ponds, a bone yard, maintenance areas, transformer and substations, wastewater treatment facilities, and above-ground storage tank farms. A conceptual model was developed for use in a health risk assessment and developed risk-based corrective actions to address potential health and environmental concerns. He assisted with the development and implementation of a remedial action plan, combined administrative controls, engineering controls, and active remediation; this resulted in the cost-effective return of one site to active use, and is reducing health risks to occupants and the public at the second site.

CONFIDENTIAL: Aerospace Adhesives and Coatings Plant, Glendale, California

Mr. Emerson was part of the team that conducted feasibility studies to evaluate remedial alternatives for remediation of chlorinated VOCs, 1,4 dioxane, and hexavalent chromium (CrVI) in soil, soil vapor, and groundwater. Feasibility studies included groundwater pump testing, benchscale column testing to evaluate in situ alternatives for reducing CrVI to the less mobile CrIII valence state, soil vapor extraction, capping, and excavation. Field pilot studies were performed to evaluate the efficiency of various CrVI reductants including the use of ferrous sulfate, calcium polysulfide, emulsified oil, and fructose. Extensive multi-depth soil vapor testing was conducted to evaluate the distribution of VOCs in the subsurface and to support vapor intrusion risk assessment. Feasibility studies were completed in 2008. Remedial actions are expected to be completed in 2011.

Condition Assessments

Assessment and Mitigation of Manufacturing Facility

Kyle managed the assessment and mitigation of an ammunition manufacturing facility covering 1,100 acres in a complex geologic environment. The contaminants involved red and white phosphorous, TNT, chlorinated solvents, solid wastes, and live ordinance.

Soil Contamination Assessment Supervision and Management

Kyle managed and supervised soil contamination assessment and in-situ remediation of heavy metals involving chromium, cadmium, nickel and zinc by chemical fixation to depths in excess of 40 feet below ground surface beneath existing structures within several manufacturing facilities.

** denotes projects completed with other firms*

Kyle D. Emerson PG, CEG

Managing Principal Geologist

Litigation Support and Expert Testimony

Kyle provided litigation support and expert testimony on more than 20 separate projects involving service stations, chlorinated solvent cases, heavy metal, and semi-volatile releases.

Corporate / Office

Commercial Developer - Environmental Remediation of Former Dry Cleaners, El Centro, California

Mr. Emerson was responsible for assessments and remediation at this former dry cleaners which released the dry cleaning chemical tetrachloroethene (PCE) to the ground and underlying groundwater. The work included initial site assessment, agency interaction and negotiations with the California Regional Water Quality Control Board (CRWQCB), and Colorado Basin Region human health risk assessment (HHRA), design and implementation of remedial investigations, feasibility studies, remedial action plans, and implementation of remediation in mitigating chlorinated solvent contamination in vadose and saturated zones at concentrations indicative of DNAPL. The results of the completed remediation, as well as continued confirmation sampling and monitoring, allowed the CRWQCB to issue site closure in 2008. The site has since been redeveloped into a new commercial development.

Environmental Assessments

Siting Studies

Kyle performed initial siting studies for potential Class I, II, and III landfills. The project included detailed geologic mapping, hydrogeological studies, and permeability studies of caps and liners.

Environmental Site Remediation

Assessment and Remedial Design, California (Project Supervisor)

Kyle supervised the assessment and remedial design of a system to eliminate salt brine contamination in shallow perched water horizons in the Yucaipa, San Bernardino, and Riverside areas of southern California.

Design and Installation of Recovery Systems*

Kyle designed and installed numerous free-product recovery systems that successfully recovered product. One of the sites contained product up to 11-feet thick covering more than three city blocks. The dissolved phase had affected a multi-aquifer system and a public drinking water system.

Geophysical Characterizations*

Kyle performed and supervised numerous geophysical characterizations to determine the extent of old landfills. He provided classification studies, landfill gas monitoring, removal verification during grading, methane collection and mitigation plans, permitting, and closure plans.

Domestic Landfill Development*

Kyle designed and supervised the dynamic consolidation of a domestic landfill for development. He used this process to minimize expected settlement to overlying structures. Kyle designed commercial developments on closed landfills that involved complex methane collection and monitoring systems and building settlement controls.

** denotes projects completed with other firms*

Kyle D. Emerson PG, CEG

Managing Principal Geologist

Clay Borrow Site Studies

Kyle performed more than 10 separate clay borrow site studies for determining sources of material to cap landfills; ranged from a 20-acre dry lakebed to a 450-acre parcel in complex folded marine sediments.

Assessment, Clean Up, and Regulatory Support Management, Santa, Monica (Project Manager)

Kyle managed the assessment, clean up, and complex regulatory support of a PRP site in an MTBE case (Charnock subbasin). His work involved more than 20 environmental professionals working full time for two years to complete the assessment and clean up mandated by the regulatory agencies.

Hazardous Waste

San Gabriel Valley Superfund Site, Remediation & Closure of Multiple Source Areas, Industry, California

Mr. Emerson performed feasibility studies to evaluate appropriate and relevant remedial alternatives to mitigate constituents of concern in five AOCs contaminated with chlorinated hydrocarbons, heavy metals, petroleum fuel, and cutting oils. Ultimately, a combination of remedial alternatives was implemented that included large-diameter auger excavation to 45 feet to minimize impacts on facility operations, vapor extraction, vapor intrusion risk assessment, deed restriction, and monitored natural attenuation. At the completion of remedial actions, confirmation soil, soil vapor, and groundwater sampling were conducted and followed with risk assessment to demonstrate that remedial objectives had been achieved. No further action was recently granted by the US EPA and Los Angeles Regional Water Quality Control Board.

Mixed-Use

Port of San Diego Rohr Facility, Chula Vista, California

Mr. Emerson assisted in a detailed subsurface assessment of the Rohr facility. The intent of the assessment was to evaluate the 40-acre former aircraft part manufacturing facility for acquisition by the Port of San Diego for redevelopment into a business park and entertainment complex. The assessment identified the presence of soil, soil vapor, and groundwater impacts by petroleum hydrocarbons, VOCs, heavy metals, PCBs, and semi-volatile organic compounds. He utilized many sampling techniques to assess the limits and concentrations of contaminants in the subsurface. Ultimately, the team was able to develop a cost estimate for potential remedial action cost associated to corrective action to allow redevelopment.

Master Planned Commercial/Residential Redevelopment Project, Whittier, California (Project Manager)

Kyle oversaw the assessment of 26 contiguous properties that are part of a 21-acre master planned commercial/residential redevelopment project. The properties included industrial facilities, platting lines, fuel USTs, and metal processing plants, among others. The estimated cleanup costs are approximately \$2 million.

Kyle D. Emerson PG, CEG

Managing Principal Geologist

Multi-Unit / Family Residential

Residential Development Assessment, Ventura, California (Project Director)

Kyle directed an assessment of a 40-acre former agricultural property proposed for residential development. Pesticides were identified above hazardous waste levels and preliminary remediation goals established by the U.S. Environmental Protection Agency. Through corrective grading methods and onsite placement of the pesticide impacted soils, all material were re-used on site without offsite disposal. The overall cost savings for the client was more than \$1 million. Total cost was less than \$250,000 for all necessary activities.

Oil & Gas

Oil Field Site Assessments*

Kyle performed site assessments at oil field leases involving refineries, bulk storage areas, piping systems and wellhead, and drilling mud pit contamination.

Environmental Protection Agency Superfund Action, Culver City, California (Project Manager)

Kyle served as the project manager representing a major oil company in the assessment, remedial action, and litigation support in a multi-party contamination case affecting a City water supply. The assessment involved more than 250 continuous core borings up to 100 feet, as well as extensive remedial actions. The total cost for all related activities was \$22 million. The case is settled and the closure of the site is pending.

Project Management

Liability and Property Management Consulting Services

Kyle is providing liability and property management consulting services to more than 10 medium to large property development firms in the US. His work involves property transaction assessments, contract review, acquisition guideline development, liability management evaluation, insurance acquisition, and strategic planning.

Residential Development

Environmental Development Management and Review (Project Manager)

Kyle manages and reviews environmental development issues for a large residential developer specializing in development of contaminated industrial properties by providing innovative solutions in developing contaminated properties for residential use through risk assessment, engineering, and administrative and property development controls.

Site Management and Remediation

Design and Implementation of Biodegradation Programs*, California

Kyle designed and implemented one of the first in-situ biodegradation programs in California; it involved 50,000 cubic yards of diesel-contaminated soils, and groundwater to depths of 70 feet below ground surface.

** denotes projects completed with other firms*

Kyle D. Emerson PG, CEG

Managing Principal Geologist

Soil and Groundwater Remediation Systems Soil and Groundwater Contamination Assessments and Mitigation*, California (Project Manager)

Kyle managed numerous chlorinated solvent soil and groundwater contamination assessments and mitigation programs in southern California. The projects involved releases that impacted soil and groundwater to depth of groundwater more than 700 feet in multi-aquifer systems. One case involved with plume dimensions more than 1 mile from the source affecting residential properties.

Soil and Groundwater Assessment and Remediation Programs*

Implemented hundreds of soil and groundwater assessment and remediation programs at various service station facilities in Southern and Northern California, and Nevada. Work involved assessment, remedial design, installation, maintenance and monitoring. Closure has been received on a majority of these sites.

Assessment and Remediation Management*

Kyle managed the assessment and remediation of soil and groundwater manufacturing at dry cleaning facilities contaminated with chlorinated solvents.

Warehouse / Light Industrial Glendale Redevelopment Project, Glendale, California (Project Manager)

Kyle managed the assessment and remedial actions during the redevelopment of an industrial property. The project involved the demolition of a historic manufacturing facility and a commercial dry cleaner. Each of these facilities were associated with releases of solvents and petroleum hydrocarbons. Remedial actions involved excavation by pattern drilling and off site disposal along with removal of former USTs. The total cost of remediation and assessment was \$450,000.00.

Compton Redevelopment Project, Compton, California (Project Manager)

Kyle is serving as project manager for the assessment and remedial actions for a large redevelopment project. The project involves the redevelopment of a historic manufacturing facility and a former dry cleaner. Each of these facilities were associated with releases of solvents and petroleum hydrocarbons. The industrial facility was also associated with significant volumes of buried waste that required removal and disposal. These wastes also included the chemical referenced above, as well as PCBs and heavy metals. Remediation has included excavation, vapor extraction, and chemical fixation. The total cost of this project has been \$2.8 million to date.

** denotes projects completed with other firms*

Kyle D. Emerson PG, CEG

Managing Principal Geologist

In-Situ Bioremediation of an Underground Diesel
Fuel Spill: A Case Study. Environmental
Management, 1989.

Alicia Jansen CAC, LRCIA

Senior Scientist
21 years of experience

Alicia is a Senior Scientist with over twenty years of experience in Phase I and II Environmental Assessments, with strong emphasis in water quality and environmental research. Alicia has managed the preparation of environmental documents, training programs, and environmental compliance during large scale environmental monitoring projects. Alicia's environmental consulting experience includes performing asbestos and lead-based paint surveys, oversight of contractors during asbestos abatement, hazardous materials surveys, and Phase I Environmental Site Assessments (ESAs) in accordance with the practices identified in the American Society for Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, ASTM Designation E 1527-21 and the Standard Practice for Environmental Site Assessments for Forestland or Rural Property, ASTM Designation E 2247-16.

EDUCATION

BA, Environmental Studies, San Jose State University, San Jose, California, 2004

CERTIFICATIONS & TRAINING

Residential Measurement Provider, 108212, National Radon Proficiency Program, Anaheim, California, 2015

REGISTRATIONS

Certified Asbestos Consultant #CAC #15-5379, State of California Division of Occupational Safety and Health

Lead Inspector/Risk Assessor #LRC-00005363, California Department of Public Health

MEMBERSHIPS

Member, Groundwater Resources Association of California

PROJECT EXPERIENCE

HEALTH, SAFETY & INDUSTRIAL HYGIENE

Cochise County, Asbestos, Lead-Based Paint, and Hazardous Materials Survey | Arizona | Field Lead and Certified Asbestos Consultant

Alicia conducted with site inspections for asbestos, lead-based paint, and hazardous materials at multiple vacant structures including schools, multi-tenant apartment

buildings, and commercial structures. The scope of work involved sample collection for asbestos and lead-based paint in addition to the quantification of universal wastes (PCBs, mercury containing equipment, refrigerants, etc.) that would require special handling and disposal. She assisted with the preparation of reports summarizing findings. Role: Field Lead | Dates involved: 2020-2022

Confidential Health Care Company, Asbestos, Lead-Based Paint, and Hazardous Materials Survey | Northern California | Staff

Alicia assisted with site inspections for asbestos, lead-based paint, and hazardous materials at multiple occupied hospitals and office spaces. The scope of work involved sample collection for asbestos and lead-based paint in addition to the quantification of universal wastes (PCBs, mercury containing equipment, refrigerants, etc.) that would require special handling and disposal. She assisted with the preparation of reports summarizing findings. Role: Field Lead | Dates involved: 2013-2020

State of California General Services, Asbestos, Lead-Based Paint, and Hazardous Materials Survey | Northern California | 2009 | Technical Support

Alicia assisted with site inspections for asbestos, lead-based paint, and hazardous materials at multiple communication towers in remote areas. The scope of work involved sample collection for asbestos and lead-based paint in addition to the quantification of universal wastes (PCBs, mercury containing equipment, refrigerants, etc.) that would require special handling and disposal. She assisted with the preparation of reports summarizing findings. Role: Technical Support | Cost: Unknown | Dates involved: 10/2009-10/2009

Indoor Air Quality Assessments* | San Jose, California | 2002-2005 | Staff

Alicia performed site inspections, interviews, and collected air samples to be analyzed for various air pollutants and molds including formaldehyde, penicillium, aspergillus, cladosporium, and stachybotry. She prepared reports summarizing findings and made recommendations.

Veteran's Administration of Puget Sound, Asbestos and Lead-Based Paint Survey | Seattle, Washington | 2009 | Project Scientist

Alicia served as the Project Scientist responsible for hazardous building material assessments, specifically asbestos and lead-based paint. These services were required as part of the pre-design tasks for this project. Over 300 samples were collected over the span of four days culminating in a final hazardous building materials report to be incorporated into the facility design as well as demolition activities once the construction phase of the

** denotes projects completed with other firms*

project commences.

Interim Remedial Action, Indoor Air Sampling, and Sub-Slab Soil Gas Sampling | Sunnyvale, California | 2004–2014 | Task Manager and Field Support

Alicia conducted an indoor air sampling survey using air sampling pumps, dosimeter badges, and flame ionization detector (FID) during a sump excavation. She performs semi-annual sub-slab soil vapor sampling and indoor air quality surveys using summa canisters. She assists with the preparation and submittal of reports summarizing the findings and provides recommendations to the local regulatory agency. Role: Indoor Air Sampling Survey | Cost: Unknown | Dates involved: 09/2004-09/2014

Lead Dust Assessment and Abatement Oversight | Fremont, California | 2009 | Technical Support

Alicia assisted with the evaluation of lead dust in an industrial facility. A total of 307 dust wipe samples were collected in order to evaluate the potential presence of lead dust throughout the two-story, 500,000 square foot manufacturing building. Role: Technical Support | Cost: Unknown | Dates involved: 01/2009-03/2009

Former Tesoro Coke Facility, Asbestos, Lead-Based Paint Survey | Pittsburg, California | Technical Support

Alicia assisted with an asbestos and lead paint survey of 20 structures at the facility ultimately scheduled for demolition. More than 200 samples were collected over the span of two days. She prepared a report for demolition while also providing the information needed for worker safety during demolition activities at the facility. Role: Technical Support | Cost: Unknown | Dates involved: 04/2009-04/2009

State of California General Services, Asbestos and Lead-Based Paint Survey | Southern California | 2014-2019 | Certified Asbestos Consultant

Alicia conducted with site inspections for asbestos and lead-based paint at multiple bridges, maintenance stations, and roadways throughout Southern California. The scope of work involved sample collection for asbestos and lead-based paint that would require special handling and disposal. She assisted with the review and approval of reports summarizing findings. Role: Certified Asbestos Consultant | Cost: Unknown | Dates involved: 9/2014-10/2019

Confidential Client, Asbestos and Lead-Based Paint Survey | Multiple Sites, California | Task Manager and Certified Asbestos Consultant

Alicia conducts pre-demolition asbestos and lead paint surveys of structures ultimately scheduled for demolition. She prepared a report for demolition while also providing the information needed for worker safety during demolition activities at the facility. Role: Task Manager and Certified Asbestos Consultant | Dates involved: 2006 - present

PERMITTING, COMPLIANCE, AUDITING

Tesoro Refinery, Initial Study* | Benicia, California | 2005 | Staff

Alicia assisted with the background research and preparation of applicant-prepared initial study for the

upgrade of a refinery.

Transmission Line Upgrade* | San Mateo to San Francisco, California | 2005 | Environmental Research and Compliance Staff

Alicia supported the environmental compliance program for the construction of a 27-mile 230 kV underground and overhead transmission line. She assisted with the preparation and submittal of variance requests, extra work space requests, and daily and weekly reports for submittal to the California Public Utilities Commission. She also conducted research and assisted with training and report preparation.

REMEDIAL INVESTIGATIONS & ASSESSMENTS

California Department of Transportation Portfolio | Multiple Sites, Northern California and Southern California, California | 2008-2019 | Task Lead Manager

Alicia prepared quarterly groundwater monitoring reports, subsurface investigation reports, sensitive receptor surveys, and preferential pathway studies for various California Department of Transportation locations throughout Northern California. She assisted with the utility locating, work plan preparation, field coordination, archived data onto the State Water Resource Control Board's (RWQCB) Geotracker electronic filing system. Alicia currently conducts site inspections for asbestos, lead-based paint, and hazardous materials for bridges, salt barns, and maintenance buildings associated with California Department of Transportation locations throughout Southern California. The scope of work involves sample collection for asbestos and lead-based paint that would require special handling and disposal. She assists with the preparation of reports summarizing findings. Role: Task Lead Manager | Cost: Unknown | Dates involved: 06/2008-02/2019

Soil Gas Sampling and Human Health Risk Assessment | San Jose, California | 2014 | Project Lead

Alicia performed a soil vapor survey in conformance with the DTSC Advisory Active Soil Gas Investigations, using soil vapor sampling devices and a mobile laboratory for onsite chemical analysis. She also assisted with the report preparation summarizing the findings and providing recommendations for further assessment. Role: Task Lead Manager | Cost: Unknown | Dates involved: 2014

Confidential Clients, Phase I Environmental Site Assessments | Multiple Sites, California, Arizona, New Mexico, Texas, Virginia | Task Manager

Alicia performs Phase I Environmental Site Assessments for multiple confidential clients in accordance with the practices identified in the American Society for Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, ASTM Designation E 1527-13; ASTM E 1527-21; and Standard Practice for Environmental Site Assessments for Forestland or Rural Property, ASTM Designation E 2247-16 to achieve compliance with requirements of the "All Appropriate Inquiries" rule required to obtain protection from liability under the federal Comprehensive Environmental Response, Cleanup and Liability Act (CERCLA). Previous sites include large industrial warehouses, multi-tenant

** denotes projects completed with other firms*

commercial buildings, large lots of vacant land, and residential properties. She reviews topographic maps, Sanborn Fire Insurance Maps, and files at local regulatory agencies. She interviews present and former property owners and performed site and adjacent property reconnaissance. She prepares reports summarizing the findings and provides recommendations for further assessment if applicable. Role: Task Lead Manager | Cost: \$3,000-8,000 per report. | Dates involved: 2006-present

Goodyear Portfolio | California and Hawaii | 2005–2020 | Project Lead

Alicia performed Phase I Environmental Site Assessments (ESA) and Phase II Site Assessments for various Goodyear Tire & Rubber Company locations throughout California and Hawaii. She assisted with the installation of monitoring wells and exploratory borings; underground storage tank removals; site restoration; product removal with passive recovery system; archived data onto the State Water Resource Control Board's Geotracker electronic filing system; and assisted with the preparation of quarterly groundwater monitoring reports, sensitive receptor surveys, site conceptual models, and subsurface investigation reports. Approximately 250 Sites

- Cost: \$8,000 per site.

APPENDIX C

USER PROVIDED RECORDS

PHASE I ESA USER'S QUESTIONNAIRE

In order to qualify for protection from land owner liability under CERCLA as an *innocent landowner*, *bona fide prospective purchaser*, or *contiguous property owner*, ASTM standard practice E1527-21 and the federal AAI rule (40 CFR 312) require that the User of the Phase I ESA report provide certain information (if available) to the Environmental Professional completing the assessment. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete. Information that is not or cannot be provided to the Environmental Professional may be identified as a "data gap" in the Phase I ESA report.

Please answer the following questions as completely as possible. Attach additional pages as needed. Return the completed questionnaire to Stantec along with the executed Authorization For services form.

1. Property Information

Property Name: Upland - Arrow _____

Property Address(es): _____

City: Upland _____ State CA __ Zip 91786 _____

Property Owner Name: Connect Senior Services, Inc. _____

Property Owner Phone #: 909-985-1215 _____

2. Contact For Site Access

Name: Bret Ilich _____

Company/Organization/Title: Warmington Residential _____

Phone # 909-489-2113 E-Mail Address: bret@warmingtongroup.com _____

3. Environmental Cleanup Liens. Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law?

_____ Yes X _____ No

If yes, describe or attach details of the lien _____

4. Activity and Land Use Limitations. Are you aware of any activity and use limitations, such as engineering controls, land use restrictions, or institutional controls that are in place at the property and/or have been filed or recorded as applicable to the property as a result of environmental contamination, investigation, cleanup, or related matters?

_____ Yes X _____ No

If yes, describe or attach details of the limitations _____

5. Specialized Knowledge or Experience. As the User of this ESA, do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property, such that you would have specialized knowledge about chemicals and processes used by this type of business?

_____ Yes X_____ No

If yes, describe or attach details of your specialized knowledge or experience _____

6. Relationship of Purchase Price to Fair Market Value of Property. Does the purchase price being paid for the property reasonably reflect the fair market value?

X_____ Yes _____ No

_____ Not applicable. User is not involved in a purchase of the property.

If you conclude that there is a difference, do you have any reason to believe that the reduced purchase price may be related to contamination known or believed to be present at the property?

_____ Yes, I have reason to believe that the purchase price for the property has been reduced in comparison with the fair market value due to contamination known or believed to be present at the property.

_____ No, I have no reason to believe that the purchase price for the property has been reduced in comparison with the fair market value due to contamination known or believed to be present at the property.

7. Commonly Known or Reasonably Ascertainable Information. Are you aware of commonly known or reasonably ascertainable information about the property that would help the Environmental Professional to identify conditions indicative of releases or threatened releases of hazardous substances or petroleum products? For example:

Do you know the past uses of the property?

_____ Yes (describe) _____

X_____ No

Do you know of chemicals, hazardous substances or petroleum products that are present or once were present at the property?

_____ Yes (describe) _____

X_____ No

Do you know of spills or other releases of chemicals, hazardous substances or petroleum products that have taken place at the property?

☐ Yes (describe) _____

☒ No

Do you know of any environmental cleanups that have taken place at the property?

☐ Yes (describe) _____

☒ No

8. The Degree of Obviousness of Contamination. E1527-21 and the federal AAI rule (40 CFR 312.31) require that the Phase I ESA consider the degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation. Based on your knowledge and experience related to the property, are there any *obvious* indicators that point to the presence or likely presence of contamination at the property?

☐ Yes (describe) _____

☒ No

9. Availability of Previous Environmental Reports. Are you aware of previous environmental site assessment reports, other environmental reports, documents, correspondence, etc. concerning the property and its environmental condition?

☐ Yes (describe) _____

☒ No

PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. *The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties.* Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

Please be advised that any provision contained in this document, or in a document that is attached, linked or referenced in this document, that under applicable law illegally discriminates against a class of individuals based

upon personal characteristics such as race, color, religion, sex, sexual orientation, gender identity, familial status, disability, national origin, or any other legally protected class, is illegal and unenforceable by law.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of September 20, 2024 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

To Be Determined

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest at the date hereof is vested in:

UPLAND MANOR, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION, AS TO PARCELS 1 THROUGH 3; AND

UPLAND MANOR, INC., A CALIFORNIA NON-PROFIT RELIGIOUS CORPORATION, AS TO PARCELS 4 AND 5, SUBJECT TO THE EXCEPTION NO'S. 22 AND 40

The estate or interest in the land hereinafter described or referred to covered by this Report is:

A Fee as to Parcel(s) 1, 2, 3, 4 and 5; An Easement as to Parcel(s) 3C

The Land referred to herein is described as follows:

(See attached Legal Description)

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

1. General and special taxes and assessments for the fiscal year 2024-2025, a lien not yet due or payable.
2. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

The Following Matters Affect Parcels 1 through 3:

3. An easement for PIPE LINES AND CONDUITS and incidental purposes, recorded MAY 28, 1885 in [Book 41 of Deeds, Page 363](#).

In Favor of: SAN ANTONIO WATER COMPANY
Affects: AS DESCRIBED THEREIN

The location of the easement cannot be determined from record information.

4. An easement for PIPE LINES AND CONDUITS and incidental purposes, recorded MARCH 12, 1889 in [Book 94 of Deeds, Page 155](#).

In Favor of: ONTARIO LAND AND IMPROVEMENT COMPANY,

Affects: A CORPORATION, ETAL
AS DESCRIBED THEREIN

The location of the easement cannot be determined from record information.

5. An easement for PIPE LINES and incidental purposes, recorded NOVEMBER 17, 1892 in [Book 167](#) of Deeds, [Page 138](#).
In Favor of: POMONA LAND AND WATER COMPANY
Affects: AS DESCRIBED THEREIN

The location of the easement cannot be determined from record information.

6. An easement for PIPE LINES AND CONDUITS and incidental purposes, recorded MAY 20, 1908 in [Book 419 of Deeds, Page 81](#).
In Favor of: THE ONTARIO LAND IMPROVEMENT COMPANY,
ETAL
Affects: AS DESCRIBED THEREIN

The location of the easement cannot be determined from record information.

7. An easement for SEWERS and incidental purposes, recorded JUNE 27, 1956 as [BOOK 3973, PAGES 459, 462 AND 469](#) of Official Records.
In Favor of: THE CITY OF UPLAND, A MUNICIPAL CORPORATION
Affects: AS DESCRIBED THEREIN
8. An easement for PUBLIC UTILITIES and incidental purposes, recorded OCTOBER 16, 1956 as [BOOK 4065, PAGE 86](#) of Official Records.
In Favor of: SOUTHERN CALIFORNIA EDISON COMPANY
Affects: AS DESCRIBED THEREIN
9. An easement for PUBLIC UTILITIES and incidental purposes, recorded JUNE 14, 1957 as [BOOK 4256, PAGE 566](#) of Official Records.
In Favor of: SOUTHERN CALIFORNIA EDISON COMPANY
Affects: AS DESCRIBED THEREIN
10. An easement for PUBLIC UTILITIES and incidental purposes, recorded NOVEMBER 12, 1958 as [BOOK 4652, PAGE 107](#) of Official Records.
In Favor of: THE GENERAL TELEPHONE COMPANY OF CALIFORNIA
Affects: AS DESCRIBED THEREIN
11. An easement for PUBLIC UTILITIES and incidental purposes, recorded SEPTEMBER 3, 1959 as [BOOK 4920, PAGE 562](#) of Official Records.
In Favor of: GENERAL TELEPHONE COMPANY OF CALIFORNIA
Affects: AS DESCRIBED THEREIN

12. An easement for PUBLIC UTILITIES and incidental purposes, recorded NOVEMBER 24, 1959 as [BOOK 4990, PAGE 492](#) of Official Records.
In Favor of: GENERAL TELEPHONE COMPANY OF CALIFORNIA
Affects: AS DESCRIBED THEREIN
13. An easement for PUBLIC UTILITIES and incidental purposes, recorded JANUARY 5, 1960 as [BOOK 5024, PAGE 339](#) of Official Records.
In Favor of: GENERAL TELEPHONE COMPANY OF CALIFORNIA
Affects: AS DESCRIBED THEREIN
14. An easement for PUBLIC UTILITIES and incidental purposes, recorded SEPTEMBER 26, 1961 as [BOOK 5545, PAGE 197](#) of Official Records.
In Favor of: SOUTHERN CALIFORNIA EDISON COMPANY
Affects: AS DESCRIBED THEREIN
15. An easement for PUBLIC UTILITIES and incidental purposes, recorded FEBRUARY 20, 1963 as [BOOK 5856, PAGE 496](#) of Official Records.
In Favor of: SOUTHERN CALIFORNIA EDISON COMPANY
Affects: AS DESCRIBED THEREIN
16. Intentionally Deleted
17. An easement for STREET AND RELATED PURPOSES and incidental purposes, recorded MARCH 20, 1964 as [BOOK 6112, PAGE 463](#) of Official Records.
In Favor of: THE CITY OF UPLAND
Affects: AS DESCRIBED THEREIN
18. The fact that the land lies within the boundaries of the MAGNOLIA Redevelopment Project Area, as disclosed by the document recorded NOVEMBER 25, 2003 as INSTRUMENT NO. [2003-0881242](#) of Official Records.
19. An easement for DRILL, REPLACE, OPERATE AND MAINTAIN A WATER WELL FACILITY AND APPURTENANCES, WATER CONDUITS, WELL, DRAINAGE/DISCHARGE CONDUIT AND UTILITIES CONDUITS AND A RIGHT OF REASONABLE INGRESS AND REASONABLE EGRESS and incidental purposes, recorded APRIL 19, 2007 as INSTRUMENT NO. [2007-0240374](#) of Official Records.
In Favor of: WEST END CONSOLIDATED WATER COMPANY, A
CALIFORNIA CORPORATION
Affects: AS DESCRIBED THEREIN
20. The terms and provisions contained in the document entitled RECIPROCAL PARKING AGREEMENT, executed by and between UPLAND BRETHREN IN CHRIST CHURCH, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION and UPLAND MANOR, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION, recorded APRIL 19, 2007, as INSTRUMENT NO. [2007-0240376](#) of Official Records.

21. A deed of trust to secure an original indebtedness of \$920,000.00 recorded April 19, 2007 as INSTRUMENT NO. [2007-0240377](#) OF OFFICIAL RECORDS.

Dated: August 31, 2006

Trustor: UPLAND MANOR, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION

Trustee: CHICAGO TITLE INSURANCE COMPANY, A CORPORATION

Beneficiary: UPLAND BRETHREN IN CHRIST CHURCH, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION

- a. If this deed of trust is to be eliminated in the policy or policies contemplated by this report/commitment, the company will require the following for review prior to the recordation of any documents or the issuance of any policy of title insurance:
- i. Original note and deed of trust.
 - ii. Payoff demand statement signed by all present beneficiaries.
 - iii. Request for reconveyance or substitution of trustee and full reconveyance must be signed by all present beneficiaries and must be notarized by a First American approved notary.
- b. If the payoff demand statement or the request for reconveyance is to be signed by a servicer, we will also require a full copy of the loan servicing agreement executed by all present beneficiaries.
- c. If any of the beneficial interest is presently held by trustees under a trust agreement, we will require a certification pursuant to Section 18100.5 of the California Probate Code in a form satisfactory to the Company.
22. The effect of a deed dated DECEMBER 05, 2022, executed by UPLAND MANOR, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION, as Grantor, to CONNECT SENIOR SERVICES, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION, as Grantee, recorded DECEMBER 22, 2022, as INSTRUMENT NO. [2022-0405805](#) of Official Records.

The Company must obtain and review the following documents before considering vesting title in the named Grantee:

- A. An Uninsured Deed Declaration executed by the Grantor and notarized by a notary approved by the Company
- B. A confidential Statement of Information, completed by the Grantor

Once the Uninsured Deed Declaration and Statement of Information are received and reviewed, the Company may have additional requirements.

23. Any easements and/or servitudes affecting easement parcel(s) 3C herein described.

The Following Matters Affect Parcel 4:

24. An easement for LAYING PIPES FOR THE CONVEYANCE OF WATER and incidental purposes in the document recorded NOVEMBER 17, 1892 in [Book 167](#) of Deeds, [Page 138](#).

The location of the easement cannot be determined from record information.

25. THE PROVISIONS IN A DEED PROHIBITING THE BUYING, SELLING OR HANDLING OF INTOXICATING LIQUORS ON SAID LAND,

RECORDED: MAY 20, 1908, IN [BOOK 419, PAGE 81](#) OF DEEDS

26. VARIOUS AGREEMENTS, CONDITIONS AND RESERVATIONS AS TO WATER AND EASEMENTS AS SET FORTH IN THE DEED FROM CHARLES E. SUMMER AND BESSIE S.M. SUMMER, HIS WIFE, RECORDED APRIL 16, 1909, IN [BOOK 433, PAGE 224](#) OF DEEDS

The location of the easement cannot be determined from record information.

27. VARIOUS AGREEMENTS, CONDITIONS AND RESERVATIONS AS TO WATER AND EASEMENTS, AS SET FORTH IN THE DEED FROM NATHAN T. FRANKLIN, ET UX, RECORDED SEPTEMBER 17, 1931, IN [BOOK 753, PAGE 267](#), OFFICIAL RECORDS

The location of the easement cannot be determined from record information.

28. VARIOUS AGREEMENTS, CONDITIONS AND RESERVATIONS AS TO WATER AND EASEMENTS AS SET FORTH IN THE DEED FROM COLLEGE, A CALIFORNIA CORPORATION, RECORDED JUNE 28, 1957, IN [BOOK 4267, PAGE 317](#), OFFICIAL RECORDS.

The location of the easement cannot be determined from record information.

29. An easement for PUBLIC UTILITIES and incidental purposes in the document recorded as [BOOK 4554, PAGE 386](#) of Official Records.

30. An easement for PUBLIC UTILITIES and incidental purposes in the document recorded as [BOOK 4554, PAGE 390](#) of Official Records.

31. An easement for PUBLIC UTILITIES and incidental purposes in the document recorded as [BOOK 4633, PAGE 224](#) of Official Records.

32. An easement for STREET and incidental purposes in the document recorded as [BOOK 6097, PAGE 459](#) of Official Records.

33. A deed of trust to secure an original indebtedness of \$520,000.00 recorded January 04, 2010 as INSTRUMENT NO. [2010-0001110](#) OF OFFICIAL RECORDS.

Dated: December 28, 2009

Trustor: UPLAND MANOR, INC., A CALIFORNIA NON PROFIT
RELIGIOUS CORPORATION

Trustee: PACIFIC COAST TITLE, A CALIFORNIA CORPORATION

Beneficiary: BRETHREN IN CHRIST FOUNDATION, INC., AN INDIANA
NOT-FOR-PROFIT CORPORATION

- a. If this deed of trust is to be eliminated in the policy or policies contemplated by this report/commitment, the company will require the following for review prior to the recordation of any documents or the issuance of any policy of title insurance:
- i. Original note and deed of trust.
 - ii. Payoff demand statement signed by all present beneficiaries.
 - iii. Request for reconveyance or substitution of trustee and full reconveyance must be signed by all present beneficiaries and must be notarized by a First American approved notary.

- b. If the payoff demand statement or the request for reconveyance is to be signed by a servicer, we will also require a full copy of the loan servicing agreement executed by all present beneficiaries.
- c. If any of the beneficial interest is presently held by trustees under a trust agreement, we will require a certification pursuant to Section 18100.5 of the California Probate Code in a form satisfactory to the Company.

The Following Matters Affect Parcel 5:

34. AN EASEMENT FOR THE HEREINAFTER SET FORTH SPECIFIC PURPOSE AND INCIDENTAL PURPOSES, RECORDED IN [BOOK 191, PAGE 158](#), OF DEEDS, AND INCORPORATED BY REFERENCE IN THE DEED RECORDED MARCH 29, 1890 IN [BOOK "F" OF MISCELLANEOUS RECORDS, PAGE 73](#). SAID EASEMENT IS FOR PIPE LINES

The location of the easement cannot be determined from record information.

35. RESERVATIONS AS CONTAINED IN THE DEED FROM CHARLES E. SUMMER ET UX., TO NATHEN T. FRANKLIN, RECORDED APRIL 16, 1909, IN [BOOK 433, PAGE 224](#), OF DEEDS.

SAID DEED RECITES THE FOLLOWING:

"ALSO SUBJECT TO ALL RIGHTS OF WAY FOR PIPE LINES."

"IT IS EXPRESSLY UNDERSTOOD AND PROVIDED THAT GRANTOR HAS EXCEPTED AND RESERVED TO HIMSELF, HIS HEIRS AND ASSIGNS, FROM THIS CONVEYANCE THE ONE HALF INCH WATER RIGHT WITH PROPORTIONATE INTEREST IN PIPE LINE FOR CARRYING THE SAME FROM SAID SYCAMORE WATER DEVELOPMENT COMPANY SOURCES TO SAID LOTS 11 AND 12 OUT OF THE ONE AND ONE HALF INCH WATER RIGHT GRANTED HIM BY THE SYCAMORE WATER DEVELOPMENT COMPANY BY THE ABOVE MENTIONED DEED RECORDED IN [BOOK 191, PAGE 158](#), OF DEEDS. ALSO THE RIGHT TO LAY, RELAY AND MAINTAIN A PRIVATE PIPE LINE AND TAKE WATER THROUGH THE SAME ALONG THE NORTH AND EAST LINES, OR ALONG THE WEST LINE OF SAID LOTS 11 AND 12, AS HE MAY ELECT, SO AS NOT TO INTERFERE WITH THE TREES MORE THAN NECESSARY."

The location of the easement cannot be determined from record information.

36. An easement for PIPE LINES and incidental purposes in the document recorded as [BOOK 753, PAGE 267](#) of Official Records.

The location of the easement cannot be determined from record information.

37. An easement for EITHER OR BOTH POLE LINES, CONDUITS and incidental purposes in the document recorded as [BOOK 4554, PAGE 387](#) of Official Records.

38. An easement for EITHER OR BOTH POLE LINES, CONDUITS and incidental purposes in the document recorded as [BOOK 4633, PAGE 235](#) of Official Records.

39. An easement for STREET and incidental purposes in the document recorded as [BOOK 6086, PAGE 95](#) of Official Records.

40. The effect of a deed dated DECEMBER 05, 2022, executed by UPLAND MANOR, INC., A CALIFORNIA NON-PROFIT RELIGIOUS CORPORATION, as Grantor, to CONNECT SENIOR SERVICES, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION, as Grantee, recorded JANUARY 20, 2023, as INSTRUMENT NO. [2023-0014513](#) of Official Records.

The Company must obtain and review the following documents before considering vesting title in the named Grantee:

- A. An Uninsured Deed Declaration executed by the Grantor and notarized by a notary approved by the Company
- B. A confidential Statement of Information, completed by the Grantor

Once the Uninsured Deed Declaration and Statement of Information are received and reviewed, the Company may have additional requirements.

The Following Matters Affect All Parcels:

- 41. Rights of the public in and to that portion of the Land lying within any Road, Street, Alley or Highway.
- 42. Water rights, claims or title to water, whether or not shown by the Public Records.
- 43. Rights of parties in possession.

(Affects 1 through 3)
- 44. Any facts, rights, interests or claims which would be disclosed by a correct ALTA/NSPS survey.

Prior to the issuance of any policy of title insurance, the Company will require:

45. Authority documents for all parties executing documents including the following:

With respect to UPLAND MANOR, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION: Evidence that the corporation is properly formed and in good standing in the state of its domicile. An official copy of the bylaws for the corporation. A copy of a resolution of the Board of Directors authorizing the contemplated transaction and designating which corporate officers shall have the power to execute on behalf of the corporation. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require.

46. Authority documents for all parties executing documents including the following:

With respect to CONNECT SENIOR SERVICES, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION: Evidence that the corporation is properly formed and in good standing in the state of its domicile. An official copy of the bylaws for the corporation. A copy of a resolution of the Board of Directors authorizing the contemplated transaction and designating which corporate officers shall have the power to execute on behalf of the corporation. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require.

47. With respect to UPLAND MANOR, INC., A CALIFORNIA RELIGIOUS NON-PROFIT CORPORATION, a certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.
48. An ALTA/NSPS survey of recent date which complies with the current minimum standard detail requirements for ALTA/NSPS land title surveys.

INFORMATIONAL NOTES

Note: The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than the certain dollar amount set forth in any applicable arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. If you desire to review the terms of the policy, including any arbitration clause that may be included, contact the office that issued this Commitment or Report to obtain a sample of the policy jacket for the policy that is to be issued in connection with your transaction.

(Affects Parcel 5)

The map attached, if any, may or may not be a survey of the land depicted hereon. First American expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of the title insurance policy, if any, to which this map is attached.

LEGAL DESCRIPTION

Real property in the City of Upland, County of San Bernardino, State of California, described as follows:

Parcel No. 1: (APN: 1007-181-01-0-00)

Lot 12, Block 4, MOUNTAIN VIEW ADDITION TO NORTH ONTARIO, in the City of Upland, County of San Bernardino, State of California, as per Map recorded in [Book 8, Page 99](#), of Maps, in the office of the County Recorder of said county.

Except Therefrom the South 200 feet thereof.

Parcel No. 2: (APN: 1007-181-02-0-000)

That Portion of the Southwest one-quarter of the Northwest one-quarter of Section 7, Township 1 South, Range 7 West, San Bernardino Meridian, in the City of Upland, County of San Bernardino, State of California, According to Government Survey, lying between the East line of Lot 12, Block 4, MOUNTAIN VIEW ADDITION TO NORTH ONTARIO, in the City of Upland, County of San Bernardino, State of California, as per Map recorded in [Book 8, Page 99](#), of Maps, in the office of the County Recorder of said County and the West line of Lot 562, According to Map of Ontario to recorded in [Book 11, Page 6](#), of Maps, records of said county.

Except Therefrom the East 30 feet thereof, and Except the South 200 feet thereof.

Parcel No. 3: (APN: 1046-321-43-0-000)

The West 180.00 feet of the North 366.00 feet of Lot 562, According to the Map of Ontario, in the County of San Bernardino, State of California, as per Map recorded in [Book 11, Page 6](#), of Maps, in the office of the County Recorder of said county.

Except the West 10.00 feet thereof

Also Except that portion of said land lying within Tract No. 5288, As per Map recorded in [Book 67, Pages 86 and 87](#), of Maps, in the office of the County Recorder of said county.

Also Except the East 30 feet of that portion thereof lying South of the Westerly prolongation of the South line of said Tract No. 5288.

Parcel No. 3A: (a Portion of APN: 1007-181-02-0-000)

The West 10 feet of Lot 562, ONTARIO COLONY LANDS, in the City of Upland, County of San Bernardino, State of California, As per Map recorded in [Book 11, Page 6](#) of Maps, in the office of the County Recorder of said county.

Parcel No. 3B: (a Portion of APN: 1007-181-02-0-000)

The East 30 feet of an entire parcel of land, which entire parcel is Rectangular in form, Approximately 40.64 feet wide East and West, and 627.39 feet long, North and South, and is bounded and described as follows:

(A) On the East by the West line of Lot 562, of ONTARIO COLONY LANDS, in the City of Upland, County

of San Bernardino, State of California, As per Map recorded in [Book 11, Page 6](#), of Maps, in the office of the County Recorder of said county.

(B) On the West by the East line of Lot 12, Block 4, MOUNTAIN VIEW ADDITION, in the City of Upland, County of San Bernardino, State of California, As per Map recorded in [Book 8, Page 99](#), of Maps, in the office of the County Recorder of said county.

(C) On the North by a straight line extending from the Northwest corner of said Lot 562 to the Northeast corner of said Lot 12; and

(D) On the South by a straight line extending from the Southwest corner of said Lot 562, to the Southeast corner of said Lot 12, together with that portion described as follows:

That portion of the Southwest 1/4 of the Northwest 1/4 of Section 7, Township 1 South, Range 7 West, San Bernardino Base and Meridian, in the City of Upland, County of San Bernardino, State of California, According to Government survey, described as follows:

Commencing at the Southwest corner of Lot 562, According to MAP OF ONTARIO, as per plat recorded in [Book 11 of Maps, Page 6](#), records of said county, said point being on the Northerly line of Arrow Highway, 66 feet wide;
Thence West along the North line of said Arrow Highway, 30 feet to the True Point of Beginning,
Thence North 200 feet, parallel with the West line of said Lot 562;
Thence West 2 feet, parallel with the North line of said Arrow Highway;
Thence South 200 feet, parallel with the West line of said Lot 562, to a point in the North line of said Arrow Highway;
Thence East 2 feet to the True Point of Beginning, Excepting the South 135 feet thereof.

Excepting therefrom that portion described as follows:

That Portion of the Southwest 1/4 of the Northwest 1/4 of Section 7, Township 1 South, Range 7 West, San Bernardino Base and Meridian, in the City of Upland, County of San Bernardino, State of California, According to Government Survey, described as follows:

Commencing at the Southwest corner of Lot 562, According to MAP OF ONTARIO, as per Plat recorded in [Book 11, of Maps, Page 6](#), Records of said county, said point being on the Northerly line of Arrow Highway, 66 feet wide;
Thence West along the North line of said Arrow Highway, 30 feet to the True Point of Beginning;
Thence North 135 feet, parallel with the West line of said Lot 562;
Thence East 1 foot, parallel with the North line of said Arrow Highway;
Thence South 135 feet, parallel with the West line of said Lot 562, to a point on the North line of said Arrow Highway;
Thence West 1 foot to the True Point of Beginning.

Parcel No. 3C:

A non-exclusive easement for ingress and egress over the East 30.00 feet of the West 180.00 feet of Lot 562, According to the MAP OF ONTARIO, in the County of San Bernardino, State of California, As per Map recorded in [Book 11, Page 6](#) of Maps, in the office of the County Recorder of said county.

Except that portion lying North of the Westerly prolongation of the South line of Tract No. 5288, as per Map recorded in [Book 67, Pages 86 and 87](#) of Maps, in the office of the County Recorder of said county.

Parcel No. 4: (APN: 1007-181-03-0-000)

The South 200 feet of the East 1/2 of Lot 12, Block 4, MOUNTAIN VIEW ADDITION TO NORTH ONTARIO, in the City of Upland, County of San Bernardino, State of California, as per plat recorded in [Book 8 of Maps, Page 99](#), records of said county.

Excepting therefrom the West 77.6 feet thereof.

Parcel No. 4A:

The South 200 feet of that Portion of the Southwest 1/4 of the Northwest 1/4 of Section 7, Township 1 South, Range 7 West, San Bernardino Base and Meridian, According to the official plat of said land approved by the surveyor general, dated July 28, 1965, adjoining Parcel No. 1 on the East and lying between the West line of Lot 562, According to the Map of Ontario, as per plat recorded in Book 11 of Maps, Page 6, records of said county, and the East line of the property described in Parcel 1.

Excepting from said Parcel No. 4A the East 29 feet of the South 135 feet and the East 32 feet of the North 65 feet thereof.

Parcel No. 5: (APN: 1007-181-04-0-000)

The West 77 ½ feet of the South 200 feet of the East ½ of Lot 12, Block 4, MOUNTAIN VIEW ADDITION TO NORTH ONTARIO, in the City of Upland, County of San Bernardino, State of California, as per Plat recorded in [Book 8 of Maps, Page 99](#), records of said county.

NOTICE

Section 12413.1 of the California Insurance Code, effective January 1, 1990, requires that any title insurance company, underwritten title company, or controlled escrow company handling funds in an escrow or sub-escrow capacity, wait a specified number of days after depositing funds, before recording any documents in connection with the transaction or disbursing funds. This statute allows for funds deposited by wire transfer to be disbursed the same day as deposit. In the case of cashier's checks or certified checks, funds may be disbursed the next day after deposit. In order to avoid unnecessary delays of three to seven days, or more, please use wire transfer, cashier's checks, or certified checks whenever possible.

EXHIBIT A
LIST OF PRINTED EXCEPTIONS AND EXCLUSIONS (BY POLICY TYPE)
CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE [(07-01-2021) v. 01.00]
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy and We will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
 - i. the occupancy, use, or enjoyment of the Land;
 - ii. the character, dimensions, or location of any improvement on the Land;
 - iii. the subdivision of land; or
 - iv. environmental remediation or protection.
- b. any governmental forfeiture, police, or regulatory, or national security power.
- c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.
Exclusion 1 does not modify or limit the coverage provided under Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23, or 27.
2. Any power to take the Land by condemnation. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 17.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
 - a. created, suffered, assumed, or agreed to by You;
 - b. not Known to Us, not recorded in the Public Records at the Date of Policy, but Known to You and not disclosed in writing to Us by You prior to the date You became an Insured under this policy;
 - c. resulting in no loss or damage to You;
 - d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 5, 8.f., 25, 26, 27, 28, or 32); or
 - e. resulting in loss or damage that would not have been sustained if You paid consideration sufficient to qualify You as a bona fide purchaser of the Title at the Date of Policy.
4. Lack of a right:
 - a. to any land outside the area specifically described and referred to in Item 3 of Schedule A; and
 - b. in any street, road, avenue, alley, lane, right-of-way, body of water, or waterway that abut the Land.
 Exclusion 4 does not modify or limit the coverage provided under Covered Risk 11 or 21.
5. The failure of Your existing structures, or any portion of Your existing structures, to have been constructed before, on, or after the Date of Policy in accordance with applicable building codes. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 14 or 15.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transfer of the Title to You is a:
 - a. fraudulent conveyance or fraudulent transfer;
 - b. voidable transfer under the Uniform Voidable Transactions Act; or
 - c. preferential transfer:
 - i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
 - ii. for any other reason not stated in Covered Risk 30.
7. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
8. Negligence by a person or an entity exercising a right to extract or develop oil, gas, minerals, groundwater, or any other subsurface substance.
9. Any lien on Your Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 9 does not modify or limit the coverage provided under Covered Risk 8.a. or 27.
10. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	<u>Your Deductible Amount</u>	<u>Our Maximum Dollar Limit of Liability</u>
Covered Risk 16:	1% of Policy Amount Shown in Schedule A or \$2,500 (whichever is less)	\$10,000
Covered Risk 18:	1% of Policy Amount Shown in Schedule A or \$5,000 (whichever is less)	\$25,000
Covered Risk 19:	1% of Policy Amount Shown on Schedule A or \$5,000 (whichever is less)	\$25,000
Covered Risk 21:	1% of Policy Amount Shown on Schedule A or \$2,500 (whichever is less)	\$5,000

ALTA OWNER'S POLICY [(07-01-2021) V. 01.00]
 CLTA STANDARD COVERAGE OWNER'S POLICY [(02-04-22) V. 01.00]
 EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
 - i. the occupancy, use, or enjoyment of the Land;
 - ii. the character, dimensions, or location of any improvement on the Land;
 - iii. the subdivision of land; or
 - iv. environmental remediation or protection.
 - b. any governmental forfeiture, police, regulatory, or national security power.
 - c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.
- Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
 3. Any defect, lien, encumbrance, adverse claim, or other matter:
 - a. created, suffered, assumed, or agreed to by the Insured Claimant;
 - b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - c. resulting in no loss or damage to the Insured Claimant;
 - d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
 - e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
 4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
 - a. fraudulent conveyance or fraudulent transfer;
 - b. voidable transfer under the Uniform Voidable Transactions Act; or
 - c. preferential transfer:
 - i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
 - ii. for any other reason not stated in Covered Risk 9.b.
 5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
 6. Any lien on the Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
 7. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

NOTE: The 2021 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as numbers 1 through 7. The 2021 CLTA Standard Coverage Owner's Policy will include the Western Regional Standard Coverage Exceptions listed below as numbers 1 through 7.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas,

uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

2006 ALTA OWNER'S POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
 - (a) a fraudulent conveyance or fraudulent transfer; or
 - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

NOTE: The 2006 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as numbers 1 through 7.

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal sites subject to CERCLA removals and CERCLA orders

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 09/25/2024 has revealed that there is 1 SEMS site within approximately 0.5 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>DYNAMIC X METALS PLA</i>	<i>925 WEST 9TH STREET</i>	<i>S 1/8 - 1/4 (0.249 mi.)</i>	<i>G30</i>	<i>85</i>

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status

EXECUTIVE SUMMARY

indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 09/25/2024 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Lists of Federal RCRA generators

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/03/2024 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 07/22/2024 has revealed that there are 7 ENVIROSTOR sites within approximately 1 mile of the target property.

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the SWF/LF list, as provided by EDR, has revealed that there is 1 SWF/LF site within approximately 0.5 miles of the target property.

Lists of state and tribal leaking storage tanks

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 18 LUST sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/03/2024 has revealed that there are 14 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 11 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

CHROME PLATING: This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

A review of the CHROME PLATING list, as provided by EDR, and dated 08/28/2024 has revealed that there

EXECUTIVE SUMMARY

is 1 CHROME PLATING site within approximately 0.5 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste. California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Environmental Interest/Information System:

The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

THE SUPERFUND ENTERPRISE MANAGEMENT SYSTEM (SEMS) INTEGRATES MULTIPLE LEGACY SYSTEMS INTO A COMPREHENSIVE TRACKING AND REPORTING TOOL, PROVIDING DATA ON THE INVENTORY OF ACTIVE AND ARCHIVED HAZARDOUS WASTE SITES EVALUATED BY THE SUPERFUND PROGRAM. IT CONTAINS SITES THAT ARE EITHER PROPOSED TO BE OR ARE ON THE NATIONAL PRIORITIES LIST (NPL) AS WELL AS SITES THAT ARE IN THE SCREENING AND ASSESSMENT PHASE FOR POSSIBLE INCLUSION ON THE NPL.

Environmental Interest/Information System:

THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Violation Description: 16, Section(s) 2665(b)
"Failure to submit a copy of the overfill prevention equipment inspection results on the Overfill Prevention Equipment Inspection Report Form to the UPA within 30 days after the inspection. "

Violation Notes: Returned to compliance on 07/22/2021. OBSERVATION: The Overfill Prevention inspection was received on 07/13/2021 and the inspection was conducted on 04/15/2021. CORRECTIVE ACTION: The Overfill Prevention inspection should be received within 30 days after completion. The inspection report was received on 07/13/2021. Violation abated.

Violation Division: San Bernardino County Fire Department
Violation Program: UST
Violation Source: CERS,

Site ID: 104796
Site Name: G&M Oil Co. #36
Violation Date: 03-18-2020
Citation: HSC 6.7 25284.2 - California Health and Safety Code, Chapter 6.7, Section(s) 25284.2

Violation Description: "Failure to meet one or more of the following requirements: Install or maintain a liquid-tight spill container. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill container. Be resistant to galvanic corrosion. Perform a tightness test at installation, every 12 months thereafter, or within 30 days after a repair to the spill container. Tested using applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Tested by a certified UST service technician. Maintain records of spill containment testing for 36 months. "

Violation Notes: Returned to compliance on 04/22/2020. OBSERVATION: At the time of inspection, the spill bucket for T2 (Regular) did not meet the minimum 5-gallon capacity per Service Technician. CORRECTIVE ACTION: Submit plans and apply for a permit within 30 days for replacement of the spill bucket for T2 (Regular). Increasing the capacity of the spill bucket will change the length of the riser/flapper drop tube (overfill).

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 09/25/2024	Source: EPA
Date Data Arrived at EDR: 10/01/2024	Telephone: N/A
Date Made Active in Reports: 10/23/2024	Last EDR Contact: 11/01/2024
Number of Days to Update: 22	Next Scheduled EDR Contact: 01/06/2025
	Data Release Frequency: Quarterly

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 09/25/2024	Source: EPA
Date Data Arrived at EDR: 10/01/2024	Telephone: N/A
Date Made Active in Reports: 10/23/2024	Last EDR Contact: 11/01/2024
Number of Days to Update: 22	Next Scheduled EDR Contact: 01/06/2025
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 10/15/1991

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 09/25/2024

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL));

State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor

provides similar information to the information that was available in CalSites, and provides additional site information,

including, but not limited to, identification of formerly-contaminated properties that have been released for

reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses,

and risk characterization information that is used to assess potential impacts to public health and the environment

at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Local Land Records

LIENS: Environmental Liens Listing

A listing of property locations with environmental liens for California where DTSC is a lien holder.

Date of Government Version: 05/31/2024	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 06/21/2024	Telephone: 916-323-3400
Date Made Active in Reports: 09/11/2024	Last EDR Contact: 11/19/2024
Number of Days to Update: 82	Next Scheduled EDR Contact: 03/10/2025
	Data Release Frequency: Varies

LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

Date of Government Version: 09/25/2024	Source: Environmental Protection Agency

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

	Data Release Frequency: Annually

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration's document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

CHROME PLATING: Chrome Plating Facilities Listing

This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

HWTS: Hazardous Waste Tracking System

DTSC maintains the Hazardous Waste Tracking System that stores ID number information since the early 1980s and manifest data since 1993. The system collects both manifest copies from the generator and destination facility.

Date of Government Version: 07/19/2024
Date Data Arrived at EDR: 07/30/2024
Date Made Active in Reports: 08/28/2024
Number of Days to Update: 29

Last EDR Contact: 11/07/2024
Next Scheduled EDR Contact: 01/13/2025
Data Release Frequency: Varies

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

LOS ANGELES CO LF METHANE: Methane Producing Landfills

This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

SITE MIT SANTA CRUZ: Site Mitigation Santa Cruz County List

Sites may become contaminated with toxic chemicals through illegal dumping or disposal, from leaking underground storage tanks, or through industrial or commercial activities. The goal of the site mitigation program is to protect the public health and the environment while facilitating completion of contaminated site clean-up projects in a timely manner.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

Longitude (West):	117.663498 - 117° 39' 48.59"
Universal Transverse Mercator:	Zone 11
UTM X (Meters):	438798.0
UTM Y (Meters):	3773340.2
Elevation:	1281 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	50005381 ONTARIO, CA
Version Date:	2021

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
06037C1750F	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>
Not Reported	

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
ONTARIO	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
A2	1/2 - 1 Mile SW	Not Reported
10	1/2 - 1 Mile ENE	Not Reported
1G	1/2 - 1 Mile ENE	Not Reported
2G	1/2 - 1 Mile SW	Not Reported

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: TUJUNGA

Soil Surface Texture: gravelly loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	35 inches	gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.3 Min: 6.1
2	35 inches	59 inches	gravelly sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.3 Min: 6.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Map ID: 2

Soil Component Name: TUJUNGA

Soil Surface Texture: gravelly loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	18 inches	gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1
2	18 inches	59 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1

Soil Map ID: 3

Soil Component Name: Hanford

Soil Surface Texture: sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program

State Water Resources Control Board

Telephone: 916-341-5577

The GAMA Program is California's comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Health Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing

Department of Conservation

Telephone: 916-445-9686

Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservation's Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Oil and Gas Well Locations

Source: Dept of Conservation, Geologic Energy Management Division

Telephone: 916-323-1779

Oil and Gas well locations in the state.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon

Source: Department of Public Health

Telephone: 916-210-8558

Radon Database for California

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities

Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater

Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Stantec were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 1320 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

SUBJECT: CERTIFIED RECORD SEARCH FINDINGS
911 AND 927 WEST ARROW HIGHWAY, UPLAND, CALIFORNIA
APN #S: 1007-181-01-0000, 1007-181-02-0000, 1007-181-03-0000, 1007-181-04-0000,
1046-321-43-0000

This is to confirm that the OFM Hazardous Materials Section (HMS) has searched its records for any file(s) pertaining to the subject property, as described in your request, and finds that no records exist for the above site description(s).

Records maintained by OFM-HMS date back to mid-1980's. Records searched include:

- Facilities with hazardous waste generator permits, hazardous materials handler permits, underground storage tank permits, universal waste permits, tiered permits, EPCRA facilities, RMP facilities, Cal ARP facilities, and/or waste recycling generators, including inactive and/or out of business records, as well as non-permitted facility actions
- Logs of permits issued for the removal, installation, and/or modification of underground storage tanks
- Records and databases pertaining to illicit dumping, spill reports, release notifications, and complaints
- Incidents responded to by the hazardous materials emergency response team
- Sites undergoing remediation for contaminated soil and/or groundwater

Internal Comments (1)

Email from Maria Skeels

RP: [REDACTED]

He says he has reported this problem once before..

There is a deadend alley that belongs to the Upland Manor. The only access is thru the Church (Church is on San Antonio and Arrow Hwy))

The weeds are 3 ft high and no one is attending to it.

Abatement Activities

Case Created Mar 12, 2024

Created by Cadet A. Ybarra (Deactivated)

1st NOV Mar 12, 2024

Verification Inspection Completed on Mar 12, 2024 by Officer Morgan

Inspection Note

On 03/12/24, I conducted an inspection of the alley. The alley was overgrown with tall weeds and did not appear to be maintained in some time. The weeds were along with west and east walls of the alley. Photos taken, NoV to be sent to the PO.

2nd NOV Mar 26, 2024

Follow-up Inspection 1 Completed on Mar 26, 2024 by Officer Morgan

Inspection Note

On 03/26/24 I re-inspected the property and noticed no changes made in the alley. The alley was still overgrown with weeds and it appeared to have grown more since the first inspection. As I was taking photos, a manager of Upland Manor identified themselves as Nick and said the alley is scheduled to be cut/gardened in the next week. Photos were taken and a second NoV is be mailed to the PO.

Final NOV Apr 08, 2024

Follow-up Inspection 2 Completed on Apr 08, 2024 by Officer Morgan

Inspection Note

On 04/08/24, I re-inspected the property and noticed no changes had been made. 3rd/final NoV to be mailed to PO. Photos taken.

Follow-up Inspection 3 Completed on Apr 18, 2024 by Officer Morgan

Inspection Note

On 04/18/24, I re-inspected the alley and noticed the weeds and overgrown vegetation had been trimmed. Photos taken

Dear Requestor:

On Nov 26, 2024, the Department of Toxic Substances Control (DTSC) received your email of Nov 26, 2024, requesting records under the Public Records Act. After a thorough review of our files, no site records were found pertaining to the sites/facilities referenced below.

911 & 927 W Arrow Highway, Upland & 100718101, -102, 103, -104 & 104632143: Yes, HWTS (Bold & Underline are yes for HWTS)

DTSC Generator information: DTSC Cypress Office does not house Generator **/HWTS** Records.

DTSC's Hazardous Waste Tracking System (**HWTS**) may have records that pertain to this request. This unit tracks toxic waste generators, transporters (manifests), and disposal facilities. If you are interested in this type of information, it can be identified by accessing the HWTS database at [N](#). If you are interested in retrieving detailed reports, additional charges may apply. Please contact the HWTS unit by email at hwtsreports@dtsc.ca.gov or by phone at (800) 618-6942 for further information. For copies of manifests, please send an email to mcr@dtsc.ca.gov.

A large number of our records are available on EnviroStor, an online database that provides non-confidential, public access to DTSC's data management system. It tracks our cleanup, permitting, enforcement, and investigation efforts at hazardous waste facilities and sites with known or suspected contamination issues. EnviroStor is available 24/7, 365 days a year. The data reflects the latest updates as they are entered in the system. Access it from your computer or smartphone, the local library – anywhere Internet access is available. Just go to www.envirostor.dtsc.ca.gov. You'll find a step-by-step tour of EnviroStor under the "How to Use EnviroStor" menu on the website.

If you have any questions, would like further information regarding your request, please contact me, via email at jone.barrio@dtsc.ca.gov or call: (714) 484-5336.

Sincerely,
Jone Barrio

Jone Barrio - Regional Records Coordinator - Dept. of Toxic Substances Control - Cypress

San Bernardino County Fire Protection District • Hazardous Materials Section
598 S. Tippecanoe Ave., San Bernardino, CA 92415-0153 • (909) 386-8401 FAX (909) 386-8460
hazmatrecords@sbcfire.org

REQUEST FOR AN ENVIRONMENTAL AUDIT PHASE 1 CERTIFIED HAZARDOUS MATERIALS RECORDS SEARCH FINDING REPORT

The main focus of a REQUEST FOR AN ENVIRONMENTAL AUDIT PHASE 1 CERTIFIED HAZARDOUS MATERIALS RECORDS SEARCH FINDING REPORT is to determine whether there exists in San Bernardino County Fire Protection District (SBCFPD) any record relating to contamination or reports of spills at a particular site. An Environmental Phase 1 Certified Hazardous Materials Records Search Finding Report should reveal whether there are any facilities at the site that are subject to current or past regulatory activity by SBCFPD, such as underground storage tanks, hazardous material handlers, hazardous waste generators, and CalARP facilities, as well as any reports of spills, incidents, complaints, or cleanup activity, which can be a useful tool in providing a history of compliance or non-compliance.

Once SBCFPD has completed its records search, an Environmental Phase 1 Certified Hazardous Materials Records Search Finding Report will be prepared and issued. Such report will detail all SBCFPD records associated with a particular site by type, date, location, and status (where applicable). All files identified in an Environmental Phase 1 Certified Hazardous Materials Records Search Finding Report can be made available for copies and/or review upon request.

If the completed records search reveals no SBCFPD record of hazardous material activity at the site, an Environmental Phase 1 Certified Hazardous Materials Records Search Finding Report will be issued, noting that "no records" were identified.

Please provide a specific site address or location description. If a situs address does not exist or cannot be found, list another type of location identifier such as Assessor Parcel Number (preferable), cross streets or intersections (e.g., NWC 5th Ave. & Main St.), and/or legal description. If possible, please attach a map to this request form.

**** IMPORTANT –THIS PAGE MUST BE SIGNED PRIOR TO SUBMITTAL ****

DISCLAIMER: While all attempts are made to provide accurate, current, and reliable information, San Bernardino County Fire Protection District (*further referred to as SBDFPD*) recognizes the possibility of human error. Therefore, SBCFPD, its officers, employees, agents and volunteers, make no representations as to the accuracy, completeness or suitability of an Environmental Audit Phase 1 Certified Hazardous Materials Records Search Finding Report and provides an Environmental Audit Phase 1 Certified Hazardous Materials Records Search Finding Report “as is,” with no warranties, express or implied, including the implied warranty of fitness for a particular purpose. In no event shall SBCFPD be liable for any damages of any nature whatsoever, arising out of the issuance of a Certified Hazardous Materials Records Search Finding Report. SBCFPD therefore assumes no liability for damages incurred directly or indirectly as a result of any errors, omissions or discrepancies in a Certified Hazardous Materials Records Search Finding Report.

RELEASE AND INDEMNIFICATION: In consideration for the issuance of an Environmental Audit Phase 1 Certified Hazardous Materials Records Search Finding Report, I hereby release and forever discharge SBCFPD, its officers, employees, agents and volunteers from any and all claims, actions, losses, damages and/or liability in connection with SBCFPD’s issuance of an Environmental Audit Phase 1 Certified Hazardous Materials Records Search Finding Report, including, but not limited to, claims that may arise due to the active or passive negligence of SBCFPD, its officers, employees, agents and volunteers.

I am familiar with the provisions of California Civil Code Section 1542, which provides as follows:

"A general release does not extend to claims which the creditor does not know or suspect to exist in his or her favor at the time of executing the release, which if known by him or her must have materially affected his or her settlement with the debtor."

I hereby expressly waive any and all rights that I may have there under. I understand and acknowledge the significance and consequence of this specific waiver of California Civil Code Section 1542 and assume full responsibility for any injuries, damages, losses or liabilities that I may hereafter discover as possibly resulting from SBCFPD’s issuance of an Environmental Audit Phase 1 Certified Hazardous Materials Records Search Finding Report.

In further consideration for SBCFPD’s issuance of an Environmental Audit Phase 1 Certified Hazardous Materials Records Search Finding Report, I hereby agree, for myself, my heirs, administrators, executors and assigns, that I shall indemnify, defend (with counsel approved by County) and hold harmless SBCFPD, its officers, employees, agents and volunteers from any and all claims, demands, actions or suits arising out of or in connection with SBCFPD’s issuance of an Environmental Audit Phase 1 Certified Hazardous Materials Records Search Finding Report brought by any third party.

I have read the above terms and conditions, including the paragraphs entitled “DISCLAIMER” and “RELEASE AND INDEMNIFICATION”, and by my signature below, I affirm that I understand these terms and conditions and accept them as part of my REQUEST FOR AN ENVIRONMENTAL AUDIT PHASE 1 CERTIFIED HAZARDOUS MATERIALS RECORDS SEARCH FINDING REPORT.

I hereby request an Environmental Audit Phase 1 Certified Hazardous Materials Records Search Finding Report for the location described on Page 1 of this application.

- ☐ I am including payment of the initial fee of \$136.00, for the first hour of research, by check or money order, payable to San Bernardino County Fire Protection District, or by credit card payment taken over the phone. I understand that research exceeding one hour will be billed at the rate of \$136.00 for each additional hour spent by SBCFPD in completing this request.
- ☒ I have faxed or emailed this request and will forward payment along with the original request form within 48 hours.

Re: Warmington - Upland

Enclosed are the results of analyses for samples received by the laboratory on 12/11/24. If you have any questions concerning this report, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Colby", is positioned above the printed name and title.

Reported
12/19/24 15:40

Notes and Definitions

- ND Analyte NOT DETECTED at or above the reporting limit
- RPD Relative Percent Difference
- E Estimated Concentration; concentration exceeds calibration range.
- LCC Leak Check Compound
- MDL Compound Reported to Method Detection Limit
- 1 Recovery outside of acceptable limits. LCS/LCSD recoveries and %RSD were within QC limits, therefore data was accepted.
- SMSR Sample matrix prevented adequate surrogate recovery.
- J Value less than PQL but greater than MDL.
- HHSR High hydrocarbon concentration in this sample prevented adequate surrogate recovery.
- SMTAR Sample matrix prevented adequate recovery of target analytes.
- OV Sample was filtered in the lab before extraction.
- HHTAR High hydrocarbon concentration prevented in-range recovery of target analytes.
- IHRPD Target analyte recoveries were outside of range but accepted due to passing RPDs
- AROL Target analyte recovery exceeded recovery range but was accepted due to ND of that analyte in MB and sample(s).
- ISO-H Isomers could not be sufficiently chromatographically resolved according to method requirements due to hydrocarbon interference or other matrix effects. The isomers' reported individual concentrations were each calculated as the average of each of the individual isomers' concentrations.
- 2 Recovery outside of acceptable limits for either LCS or LCSD. CCV and LCS or LCSD recoveries were within limits; therefore data was accepted.
- 3 RPD outside of acceptable limits. Target analyte recoveries were within QC limits; therefore, data was accepted.
- 4 LCS and/or LCSD recoveries exceeded acceptability ranges. Target analyte recoveries were accepted due to passing CCV, in-range LCS/LCSD RPDs, and a clean MB in which all target analytes were < RL.
- SMTAR Sample matrix prevented adequate recovery of target analytes.
- RV Surrogate recovery outside of control limits due to required dilution.
- ASP Hydrocarbons in this sample most closely resemble asphalt.
- @ Surrogate is outside acceptable limits. All other QC parameters in control, therefore data was accepted.
- S Sample was subjected to elemental sulfur cleanup by EPA 3660B.
- TIC Tentatively Identified Compound. Compound is not in the calibration mix and does not have a valid calibration. All reported detections are estimated

SAMPLE CONDITION RECORD

1. Are the samples within correct temperature criteria? (0 - 6°C)	Yes
2. If not within temp. criteria, were samples received on ice?	N/A
3. If not within temp. criteria, were samples received on same day of sampling?	N/A
4. Is the Chain of Custody (COC) received filled out completely?	Yes
5. Does the total number of containers received match COC?	Yes
6. Are the sample container label(s) consistent with COC?	Yes
7. Are the sample container(s) intact and in good condition?	Yes
8. Were the proper containers & sufficient volume for analyses requested on COC?	Yes
9. Was the proper preservative indicated on COC/container for analyses requested?	Yes
10. Are the containers for volatile analysis free of headspace? (EPA 8260 water)	N/A
EDF Requested	No
